THE NORMAL HERALD

CATALOGUE NUMBER OF
THE
PENNSYLVANIA STATE NORMAL

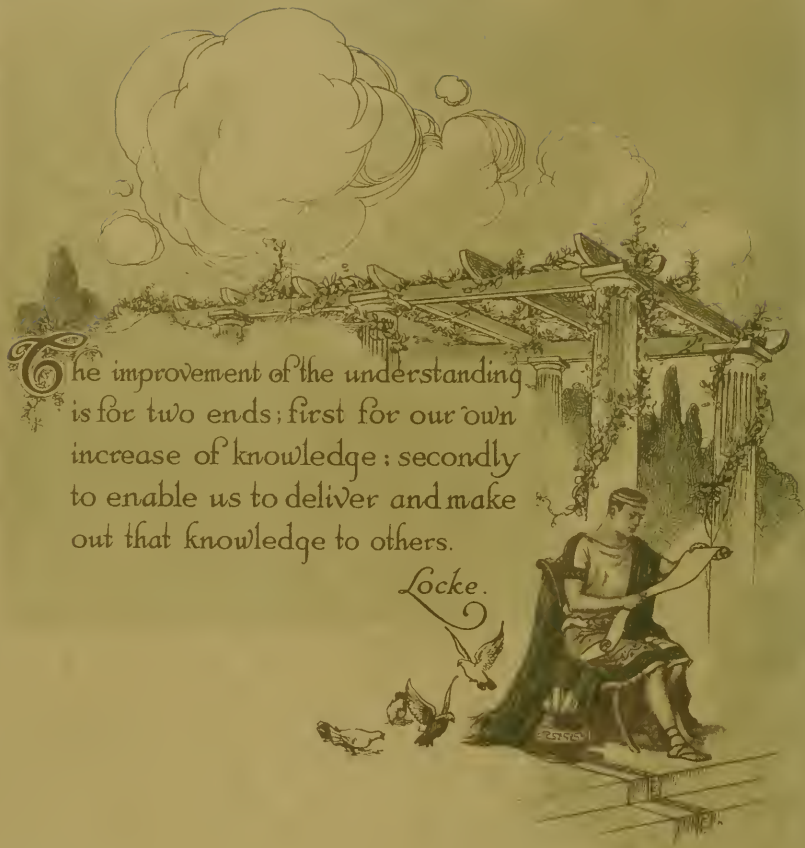

INDIANA,

PENNA.

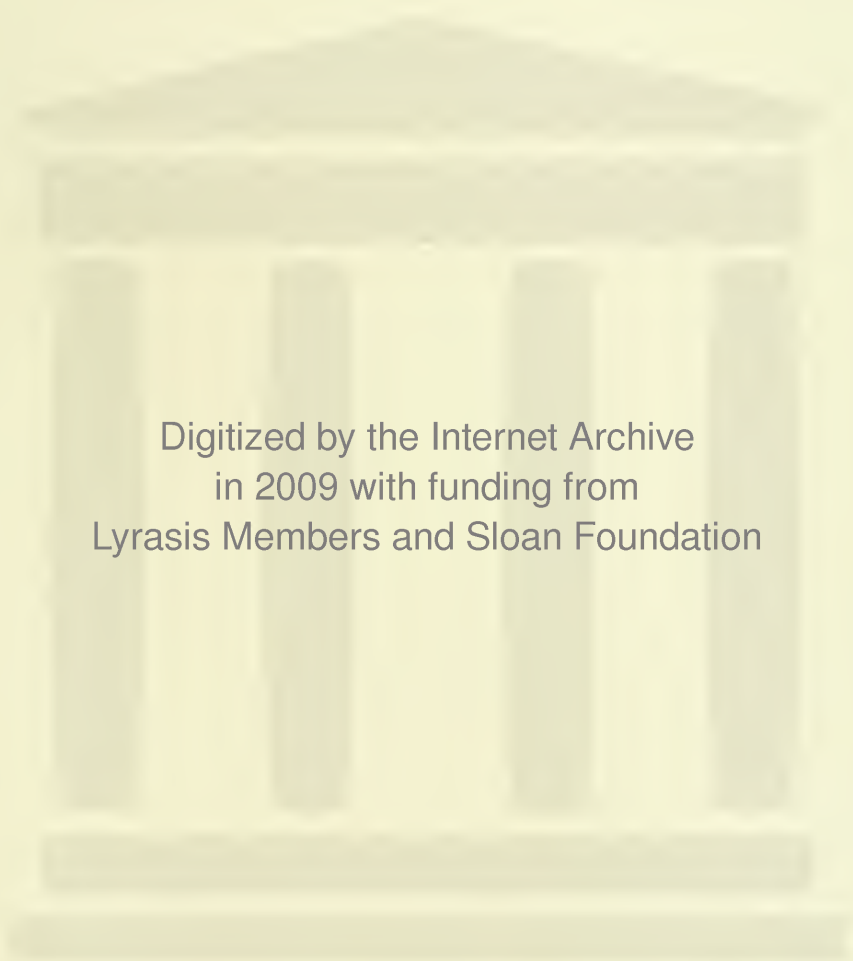

The improvement of the understanding
is for two ends; first for our own
increase of knowledge; secondly
to enable us to deliver and make
out that knowledge to others.

Locke.

 Graduate, High School, East Liverpool, Ohio; teacher in public schools, East Liverpool, Ohio; librarian, public library, East Liverpool, Ohio; student, Pennsylvania State Normal, Indiana; student, Michigan University Library School, Ann Arbor, Mich., summer 1910; in present position since 1907.
- MARGARET M. YARNALL** *Assistant Librarian*
 Graduate, Altoona High School, 1909; graduate, Indiana Normal School, Regular Course, 1912; Special Art Course, 1913; in present position since 1912.
- JENNIE M. ACKERMAN** *Supervisor of the Model School*
 Graduate, State Normal School, New Paltz, N. Y.; teacher in public schools, Red Bank, N. Y.; in High School; principal of model school, State Normal School, East Stroudsburg, Pa.; student, Columbia University, summer; critic teacher, State Normal School, Indiana, Pa., 1902-4; in present position since 1904.
- HOPE STEWART, Pd.B.** *Critic Teacher*
 Graduate, Pennsylvania State Normal School, Indiana; teacher in public schools, Indiana, Pa.; student, Clark University, summer; student, School of Pedagogy, Chautauqua, N. Y., summer, 1903; teacher in State Normal School, Indiana, Pa., 1899-1906; in present position since 1906.
- MARGARET D. MOORE** *Critic Teacher*
 Graduate, High School, Hornell, N. Y.; graduate, State Normal school, Geneseo, N. Y.; teacher, public schools in Canisteo, Addison, Little Falls, and Rochester, N. Y.; student, Cornell University, summer, 1910; in present position since 1906.
- AMY GRAY** *Critic Teacher*
 Graduate, State Normal School, Jamaica, N. Y., 1902; student, summer school, Chautauqua, N. Y., 1903; student, summer school, New York University, 1909; student, New York University, School of Pedagogy, 1909-10; teacher in public schools, Babylon and Hicksville, N. Y.; assistant principal, public schools, Hicksville, N. Y., 1906-11; principal, 1911-12; in present position since 1912.
- ETHEL M. ORR**
 Student two years in Westminster College, New Wilmington, Pa.; sometime teacher in Lincoln Normal, Marion, Alabama; sometime teacher in Pennsylvania public schools; graduate, Pennsylvania State Normal, Indiana, 1909; teacher in Monongahela Public Schools, 1909; in present position since 1910.

Looking through the Grove on a Winter Day

Administrative Organization

Officers of the Faculty

Principal: JAMES E. AMENT.
Preceptress: JANE E. LEONARD.
Preceptor: WILLIAM J. JACK.
Director of Musical Conservatory: HAMLIN E. COGSWELL.
Director of Art Instruction: JEAN R. McELHANEY.
Principal of the Business School: ALYA E. KINSLEY.
Supervisor of the Training School: JENNIE M. ACKERMAN.
Librarian: ARAMINTA M. McLANE.
Secretary to the Principal: MAYES ROBINSON.
Registrar: ERNEST B. RACE.
Manager of the Book Department: WM. F. SMITH.

LECTURE COURSE: Miss Jane E. Leonard, Mr. Cogswell, Mr. Gordon, Miss Smith, Miss Hunt, Mr. Bowman and Mr. Myers.

LITERARY SOCIETIES: Mr. John James, Miss Smith, Mr. Talbot, Mr. Wiley, Mrs. Riddle, Mr. Gordon and Miss Appelgate

PROGRAM: Mr. Wm. J. Jack, Mr. James, Mr. J. C. Smith.

RECOMMENDATIONS AND POSITIONS: Miss Jennie M. Ackerman, Miss Leonard, Mr. Kinsley, Mr. Cogswell and Mr. Gordon.

RELIGIOUS WORK: Dr. Frank Drew, Miss Leonard, Miss McLane, Miss Elizabeth Crawford, Miss Orr, Miss Stevenson, Miss Earl, Miss Mulliner and Miss Baumbach.

SCHOOL MAGAZINE: Mr. John James, Miss Leonard, Mr. Kinsley and Miss McElhaney.

SOCIAL LIFE: Miss Jane E. Leonard, Miss Stewart, Miss Cogswell, Miss Bodine, Miss Eyre, Mr. Bowman, Miss McLane, Miss Plante, Miss Fuller, Miss Utter, Miss Earl and Miss Gray.

STATE BOARD: Mr. M. C. Gordon, Mr. Jack and Miss Collins.

Standing Committees of the Faculty

(The first person named is chairman of that committee)

ATHLETICS: Mr. Wm. J. Jack, Mr. Wm. F. Smith and Mr. Frank Mount Pleasant.

CLASSIFICATION: Mr. James C. Smith.

For Music: Mr. Cogswell.

For Art: Miss McElhaney.

For Commercial Subjects: Mr. Kinsley.

For Freshmen and Below: Miss Smith, Mr. Jackson, Miss Stevenson, Miss Eyre, Miss Bodine, Miss Collins, Miss Hunt, Miss Earl and Miss Utter.

For Sophomores: Mr. Wiley, Miss Winters, Miss Elizabeth Crawford and Miss Fuller.

For Juniors: Mr. John Smith, Mr. Talbot, Mr. Bowman, Miss McVeigh.

For Seniors: Miss Ackerman, Miss Gray.

COMMENCEMENT: Mr. M. G. Gordon, Miss Leonard, Mr. J. C. Smith, Mrs. Riddle, Miss Stewart, Miss Ackerman, Mr. Jack, Miss Cogswell, Miss Eyre, Miss Appelgate, Mr. John E. Smith and Mr. Talbot.

DINING-ROOM: Mr. J. C. Smith, Mrs. Sawyer, Miss Hunt and Mr. Kinsley.

In the Red Room

Functions of the Faculty Committees

(All acts of the faculty committees are subject to the approval of the Principal)

ADVANCED STANDING: This Committee shall determine the value of all work done in other schools, which is offered by entering or prospective students for advanced standing here, and shall report its findings to the Principal.

ATHLETICS: This Committee shall have general supervision over all public athletic games, exhibitions and contests, and shall have control over the arrangements for such games, exhibitions and contests with other schools or associations.

It shall have control over the finances and property of the Athletic Association, and over the purchase of needed athletic supplies.

It shall decide what candidates for membership on teams or for admission to athletic games, exhibitions and contests shall be eligible, and it shall exclude from participation those whom it finds below the standard in their studies, or ineligible for any other cause.

CLASSIFICATION: This Committee shall enroll and classify all students.

It shall see that a full and correct registry of students be kept in the office, with copies of individual programs.

Subject to such regulations as may be adopted by the Principal, it shall pass upon all requests for changes of program.

It shall see that the grades made by students each term are duly reported to the recording official.

It shall follow up students' work and discipline delinquents, when in its judgment it thinks best, and also offer such advice and encouragement as seem wise.

It shall have the power to call upon teachers for weekly reports of the standing of students whose work is under its consideration.

COMMENCEMENT: This Committee shall have general directive charge of the affairs of Commencement.

It shall see that the diplomas are ready, and shall have proper programs printed.

LECTURES AND ENTERTAINMENTS: This Committee shall select and contract for all lectures and entertainments for the regular Normal Lecture Course.

All entertainments, excepting those which come under the control of other regular committees or the Principal, must receive the approval of this committee and be subject to its regulations before they shall be permitted to appear in the Chapel.

DINING-ROOM: This Committee shall have general charge of all dining-room matters not coming under the official control of the Steward; it shall do the seating; it shall see that good order is maintained, not only in the dining-room, but upon entering and leaving the same; in this work it shall have the cooperation of all members of the faculty.

LITERARY SOCIETIES: In working with committees appointed by the Societies, or in working with the Society officials, this Committee shall represent the Faculty. It shall labor to make more effective and valuable the work of the literary societies, and to this end shall advise with the members of the societies from time to time.

It shall have general charge of all contests, inter-society, or inter-collegiate and open meetings.

Any and all society meetings shall be open to the members of this Committee, and they shall attend the meetings from time to time.

PROGRAM: This Committee shall make out the term program, at least one week prior to the opening of the term.

The Committee may, when it deems best, consult with other members of the faculty relative to the schedule, but it shall have power to make out the program as it seems best in its judgment, and when so made and approved by the Principal, the same shall be final.

***RECOMMENDATIONS AND POSITIONS:** This Committee shall assist graduates and qualified students to secure positions to teach, and shall aid school officials in procuring teachers.

It shall collect complete and accurate information respecting all applicants for positions to teach who ask the assistance of the Committee.

RELIGIOUS WORK: It shall be the function of this Committee to assist and encourage the students in all religious work. It shall advise with the officers of the Y. W. C. A. and the Y. M. C. A.

SCHOOL MAGAZINE: This Committee shall have general charge of the publication known as the Normal Herald.

SOCIAL LIFE: This Committee shall have general and executive charge of the social life of the students. It shall have charge of the Saturday evening social, of the Hallowe'en and Washington's Birthday events and such other affairs as the Hauxhurst spreads, hay-rides and sleigh-rides.

STATE BOARD: It shall be the duty of this Committee to make all needful preparation for facilitating the work of the State Board of Examiners.

*NOTE.—The Normal, through its Committee on Recommendations and Positions, is prepared to give systematic aid to its graduates and students in securing suitable positions to teach.

The Committee seeks to assist school authorities in procuring competent teachers. The plan is to recommend candidates best suited to fill vacancies and not to send out general letters of recommendation.

School authorities who write the Committee will have full and confidential information in regard to applicants.

School officers are cordially invited to visit the Normal to inspect the work of those whom they may wish to secure to fill positions. Correspondence is invited from Boards, Principals and Superintendents in regard to vacancies and teachers. This information will be treated in full confidence and all possible assistance will be gladly given.

While the chief work of the Committee will be to help the students who are in attendance, yet it is the purpose to lend assistance to graduates and former students in securing for themselves more satisfactory positions. To this end the full cooperation of Alumni and former students is earnestly desired. Write to the Committee when in need of a teacher. Supply information concerning vacancies

All correspondence in regard to location of teachers should be addressed to the Secretary or the Principal.

The Pennsylvania State Normal School History

HE plan of this Institution was conceived in the sixties, the first money, some twenty thousand dollars, being subscribed for its founding in 1869. The first recognition by the State was through an act of the General Assembly in 1871, but the school was not opened until May 17, 1875. Its first principal was Dr. E. B. Fairfield, who afterwards, as the first Chancellor of the University of Nebraska, so largely influenced the future of that institution.

Among the notable men present upon the opening day of the school was one of Pennsylvania's most famous educators, then State Superintendent of Public Instruction, James P. Wickersham, who stated in his public address that it was his opinion that Indiana's first building was the largest, finest and best-planned structure devoted to normal school education in the United States. A monument to its founders, that building still stands, and in honor of the first president of the board of trustees, it is known as John Sutton Hall.

In 1893 there was erected upon our campus a brick residence for men students. The building was forty by one hundred feet, and consisted of a basement and three stories. In February, 1906, this building burned to the ground. There were excellent fire escapes, so not only were no lives lost, but there were no serious injuries.

The ruins were not cold before the trustees were planning for a larger and better dormitory for our young men, and in January, 1907, the Indiana boys took possession of one of the best school residences for men in the State. The building stands upon the site of the old one, but is somewhat larger, and is known as Clark Hall, in honor of the board's second president, the late Justice Silas M. Clark, of the Supreme Bench.

In 1893, also, the board erected, to the northward of the main building, the Model School, and named it in honor of their third president, the A. W. Wilson Hall. This building contains eight large, airy classrooms, with ample playrooms in the basement for use on stormy days.

The year 1903 marked a strong advance in Indiana's material equipment. The Normal's Recitation Hall was then erected. It stands just to the southward of Wilson Hall, completing the east wing of the quadrangle. A stately structure it is and one of the most beautiful on the campus. The dimensions are a frontage of one hundred and thirty feet and a depth of one hundred and twenty-three. The building is the school proper of the Normal and contains twenty-four large beautiful rooms. The Trustees honored themselves by naming this building after one of their most widely known and most faithful teachers, Jane E. Leonard.

During that same year there was erected to the westward of the south wing of John Sutton Hall another most beautiful and imposing structure, one hundred and twenty-three by ninety-two feet in size and three stories high. In

the basement of this building is the laundry and storage, while on the first floor are the kitchens, dining-rooms, and the Steward's office; the Musical Conservatory occupies the second and third stories. This building is known as Thomas Sutton Hall, in honor of the President of the Board of Trustees.

During the past few years something more than \$60,000 have been spent in improving the Institution's plant, the most noteworthy improvement being the erection of a cold storage plant in connection with the refectory. This cold storage plant is pronounced by experts to be one of the very best in all the country. It enables the school to manufacture its own ice, and to furnish its students at all times with the choicest fresh meats.

During the year 1910 two notable additions to our buildings have been made—an annex to the dining hall, seating from eighty to one hundred; and an annex to the girls' dormitory, accommodating sixty-two girls. The dining-room annex contains a very large fireplace, which promotes good cheer and helps the ventilation materially. The annex to the girls' dormitory affords to each two girls occupying it a suite consisting of a sitting-room and bedroom. There are two large wardrobe closets, one for each girl. In the bedroom each girl has her own bed, and there is a porcelain lavatory supplied with hot and cold water. No dormitory, however high the charges of the school, affords its occupants better rooms than these. This building is practically fire-proof, and its bathrooms—one on every floor—are tiled and finished in Italian marble. Occupants of these rooms pay from seventy-five cents to one dollar a week extra.

During the past year, the Trustees bought land off the Campus and across the P. R. R., and erected a Power Plant at a cost of \$120,000. This is one of the most complete plants owned by a school. It provides all heat and light and furnishes power for the elevators, ventilating fans and culinary machinery.

Indiana's student growth has never been phenomenal, but it has been steady, and has increased from 328, the total enrollment of that first term back in 1875, to more than 1,500, the number for the year just closed.

Material Equipment

The Buildings

These have already been quite fully described. They all are built of stone and brick in the most substantial manner, and are heated by steam, direct or indirect, with the fan system. The main building, used as the girls' residence is equipped with two large passenger elevators—one hydraulic, and one electric—running from the basement to the top floor, which makes the upper floors more desirable in some respects than the lower ones.

This entire building is heated by steam and lighted by electricity. Every floor is supplied with an abundance of hot and cold water, and the bathrooms, lavatories and water closets are of the most approved patterns.

On account of our method of lighting and heating, the possibility of a fire is small, while danger from it is reduced to a minimum by ample arrangements for extinguishment, and by fire-escapes abundantly provided for each floor and for each room.

In brief, this immense building is planned and furnished throughout for the convenience, safety and success of its occupants.

Each student's room is furnished with a bedstead, a bureau, a washstand, with necessary china, two chairs, a study table and a neat case of bookshelves. All rooms are carpeted and have plain shades to the windows. Many of the rooms are also furnished with single beds.

The night watchmen have their headquarters in this building, and make the rounds of all the buildings on the campus four times each night.

Each student's room in the boys' dormitory is furnished with two single iron bedsteads, a bureau, a washstand with necessary china, two chairs, and a study table. The windows are provided with plain shades.

The Laboratories

For physics, chemistry and biology are located on the first floor of Leonard Hall. Few, if any, normal schools in this country are better equipped for science work than is Indiana.

These laboratories are supplied with every necessary instrument and equipment for individual study.

The Library

A good reference library is accessible every day to all students. Here are found the leading encyclopedias, dictionaries and other standard reference books, historical charts, maps and other conveniences so essential to successful student life.

There is also a large library of choice works of history, biography and literature free to all students.

It is not the aim to mass books merely for the sake of making a large library; but we do aim to have every usable book and periodical.

The additions to the library during the year will aggregate about five hundred volumes.

We aim to give a brief course to each student on the use of a library.

In connection with the library is a reading-room, supplied with newspapers and periodicals as follows:

American Boy,	Leslie's Weekly,
American Economic Review,	Life,
American Education,	Literary Digest,
American Homes and Gardens,	Living Age,

Partial View of Annex

The Infirmary

Is pleasantly located in a retired portion of the south wing of John Sutton Hall. This Infirmary, by every physician who has ever seen it, has been pronounced to be one of the finest and best in the state. It contains three tiled bathrooms, a dispensary, a kitchen and dining-room, nurses' private quarters, ample closets, ward for girls, private room for girls, ward for boys, and private room for boys. The west end is fitted for boys, the east for girls. These two apartments are separate and distinct, being divided by a hall.

Every sanitary precaution is here taken, and every necessary arrangement is provided for the intelligent care of the sick. A graduate nurse is always in charge. Many a serious illness has been averted by early caring for the student in this Infirmary. The excellent health of our girls is proverbial, and the Infirmary is responsible in no small degree for it. No extra charge is made for care in the Infirmary, not even for the consumption of common remedies, a stock of which is always on hand. But in case the illness is such as to require the care of a physician or special nursing, the student pays that cost, and the cost of filling the physician's prescriptions. At some distance from the main

buildings, and off the campus, the Institution maintains a small hospital to which cases are confined if there is cause to suspect contagion.

In short, every precaution is taken to protect the health of the Indiana student; and during more than a third of a century but three deaths have occurred in the Institution, and it has never suffered from an epidemic, notwithstanding the thousands who have been under its care. Students, who because of severe or prolonged illness have to be transferred to a private hospital, have to pay the expense incurred at such institution and the cost of the transfer.

Students, who because of suffering from a contagious disease have to be removed to the school hospital, have to pay five dollars a week while in the hospital for nursing, and no deduction is made from the regular term payments.

Boarding

The boarding department of this school is under the charge of a Steward of wide experience.

All who visit the Institution are delighted with its beautiful, spacious dining-room, and its immaculately clean kitchens, fitted up with every modern appliance of worth. The kitchen is presided over by an expert chef. There are

Dining Room in Home-Making Department

four assistant cooks. The great bake-ovens are in the basement. We bake all our bread (white, Vienna, Graham, whole wheat, corn-bread and biscuit), pies and puddings. A professional baker has charge of the ovens.

All water served on our tables is from our own wells, drilled to a depth of more than two hundred feet.

Each table seats from eight to twelve and so far as possible is presided over by a teacher.

It is the Steward's aim to provide good, substantial, wholesome food. While it is plain, it is always the best quality to be found on our markets.

It is doubtful if there is another school in the country, whatever its character or charges, that provides a greater variety of, or more wholesome food for its students than does Indiana. Our bills-of-fare vary with the seasons. Ice-cream is regularly served twice a week. Special meals are prepared for the sick.

Students are permitted to room and board with private families, or to room in private homes and take meals in the school, at the discretion of the Principal only.

Laundry

The Institution owns a first-class Laundry, and has it under the management of competent people. The price of board here includes free laundry to the extent of ten plain pieces a week, in addition to towels and napkins. In the basement of the girls' residence is a place to do washing and ironing for the use of girls only, and many of them attend to the laundering of their own handkerchiefs and other small pieces.

All articles sent to the laundry must be plainly marked with the name of the owner in some indelible form, and should be in a laundry-bag.

All water used in our laundry is sterilized, in order to eliminate any possibility of spreading infectious diseases.

Outfit and Rooms

OUTFIT.—Students are expected to provide themselves with towels, table napkins, soap and other needful toilet articles.

ROOMS.—Students in actual attendance at the close of one term are entitled to preference in the choice of rooms for the next term. But room will not be reserved for a girl when in attendance at the school, unless she makes a deposit of five dollars with the school. If the student making deposit returns at the opening of the next term and claims her room, the deposit of five dollars will be deducted from the regular payment then to be made; otherwise, the deposit is forfeited to the school. All other students are entitled to choice of rooms in the order of the receipt of their applications.

No rooms, selected by or for students, will be held for them beyond the second day of the term, except upon special agreement to that effect, and charge will in all cases be made for rooms thus held.

Each room is intended to accommodate two boarders, and the scale of prices given in this catalogue is arranged accordingly. Where the student, by his own choice, occupies a room alone, an extra charge will be made. Students may not room alone, except with the permission of the school's authorities.

Location

The Institution is fortunate in its location, the site being one of great natural beauty, while the surrounding town is characteristically beautiful, and has developed those moral influences so desirable in the seat of an institution of learning. The town has a population of more than 6,000, and maintains churches of the following denominations: Methodist Episcopal, Free Methodist, Episcopal, Presbyterian, United Presbyterian, Catholic, Lutheran, Baptist, Wesleyan Methodist, German Lutheran and Christian.

Growth and improvement have especially marked Indiana in the past few years, and bid fair to continue. Many blocks of excellent brick paving have been laid, and contracts for many more have been let.

A Lesson in Cooking

The Old East Balcony

The place is reached by rail without difficulty, being the northern terminus of the "Indiana Branch" of the Pennsylvania, the change from the mainline being made at Blairsville Intersection, where the Indiana train awaits the mainline train. The Indiana Branch connects at Blairsville with the West Penn. Division. Indiana is also on the Buffalo, Rochester and Pittsburgh, which gives connections

with all northern points. The Institution is within ten minutes' walk of either depot. The Pennsylvania stops all its trains at the "Campus Landing" on the first day of each term. Both the railways put on extra coaches at the opening of each term in order to accommodate all, if possible, with seats.

The Pennsylvania now runs a special train for Indiana students only, from our campus direct to the Union Station at Pittsburgh, at the close of each term. The train is chaperoned by teachers.

Telephone connection can be made from the main building with all leading points.

Reference has been made to Indiana's naturally beautiful location. Here in the foot-hills of the Alleghenies, thirteen hundred feet above sea-level, with a clear, pure atmosphere, its inhabitants have always been free from miasmatic or malarial complaints. For more than a third of a century the health record of the school has been phenomenal.

Our campus, comprising twenty-three acres, has its natural beauty greatly enhanced by the constant care of a

Studio in the Conservatory

Campus Scene

landscape gardener; but its beauty is much more graphically told than mere words can do, by the photographic reproductions running through this volume. It is the belief of the Institution's authorities that such surroundings are a potent factor in the upbuilding of the student's character.

Purpose and Function of this School

Pennsylvania, in common with most of the American States, realized practically from its founding the necessity of an educated citizenship. It is axiomatic that a just and efficient government must and will be controlled and administered by the educated; hence, the genius of our government implies an educated citizenship. This attitude of the State toward the instruction of its people makes it the one competent agency in supplying qualified teachers for its schools. This, the State of Pennsylvania, does through its Public Normal Schools, whose function is the preparation of teachers for the common schools of the State. The learning and training imparted by the State through its Normal Schools has not for its purpose the bettering of the condition of one class of persons at the public expense; the school does not exist for the benefit of its students simply, but for the benefit of the whole people, and its work is done with the general welfare always in view.

It is sometimes declared by some well-meaning critic that the normal should be "a purely professional school", meaning that the school should not do academic work, but devote itself to the teaching of pedagogics, psychology, the philosophy of education, etc. All experienced trainers of teachers realize the inefficiency of such work. Those so trained rarely make successful teachers. As well might medical students devote their time to the study of diagnosis and the theory of disease, apart from materia medica and the common diseases encountered in actual practice. The average high school graduate has been away from the common school subjects for from four to five years. His knowledge of those subjects was obtained at an immature

age. In his normal school course they must be reviewed *from the standpoint of a teacher*. His view will be very different from the view he had as a child. The normal school must not only teach how to teach, but what to teach and the educational value of study subjects. True, it cannot and does not confine its courses to common school subjects, realizing the necessity of having the content of its courses broad and cultural. These facts make the normal school a desirable institution in which to obtain a general education for any purpose in life. More and more, far-seeing parents have recognized this, and have insisted upon the privilege of paying full tuition for having their children educated in the normal school, thus benefiting by its peculiar excellence.

For thousands of years, thoughtful men have realized the educational and cultural value of music, and its psychological effect in giving tone and sanity to mental life. American educational leaders believe in music as a school study, and insist upon the common school teacher's possessing a fair degree of musical knowledge and ability. To meet this demand in training, the leading normal schools have founded strong departments of music. The department at Indiana has grown into a well equipped Conservatory, second to none in this section of the country.

Campus Scene

The life of a community determines the practical side of its school education. America is a business country; hence, in its cities everywhere high schools are offering business courses. To prepare teachers for this class of High School work, this Normal maintains a Business School. So thorough and excellent is the course that many are graduated from it, not to teach, but to take up business careers. In short, it is the purpose of this Institution to prepare teachers for every grade and kind of teaching of wide demand.

Discipline

All questions of internal organization in a school must be determined by the fundamental conception of the function of the school. In determining the nature and character of discipline in a normal school, the function of the institution makes it necessary that it be but slightly, if at all, reformatory in its nature. The general welfare of the State would not be promoted by licensing one of evil tendencies or certain shortcomings to teach in the schools of the commonwealth.

It is, therefore, the policy of the administrative authorities to ask any student who does not conduct herself or himself in all things as becomes the lady or gentleman, or who is found not to be adapted to the life and work of the school for other reasons, to withdraw from the Institution.

In the government of the school, the largest liberty consistent with good work and order is allowed. The disciplinary power of the Institution is brought to bear upon the student, only to bring him to a rational understanding of freedom, and to lead him to such self-government as will make him capable in the future of wisely governing others who shall become his pupils.

It is the desire and aim of the Faculty to make the government in the school ethical in its basis.

Religious Influences

This school is not denominational in any sense. Its authorities, however, aim to make it a place of gentle but positive Christian influence. To this end family worship is held daily, and students are required to attend the church of their own choice on Sunday mornings.

The Y. M. C. A. and the Y. W. C. A. aid in the religious culture of all whose homes are in the Institution. They include a large portion of the students. These associations have charge of the Thursday evening prayer-meetings, and hold a joint meeting Sunday evenings. Endeavor is made to promote Sabbath observance.

Students are thus encouraged to become Christian workers, and school life is made to minister to the elevation of Christian life.

Besides these associations, there are various others of a practical type and in a highly prosperous condition.

The denominations that maintain churches in Indiana were mentioned in describing the School's location.

The Lecture Course

The Institution maintains an excellent free lecture course for its student body. On this course is always to be found the best obtainable talent. During the past season our students had the privilege of hearing in the Chapel, among others—

Daniel Jones (pianist)
Edward A. Ott (lecturer)
Welsh Singers
Senator Burkett (lecturer)
Montaville Flowers (reader)
C. J. Blanchard (U. S. Reclamation Service Lecturer)
Dr. Wedderspoon (Evangelist)
Shungapavi (magician)
Falk (violinist)
Alva Green (impersonator)
Walter Sargent (art lecturer)

Frequent artist recitals by members of the Faculty of the Conservatory of Music.

The Social Life

The residence of the young ladies and that of the young gentlemen who attend this Institution are entirely separate. All use the same dining-room, however, which adds greatly to the social and cultural life of the school. All social events in which the sexes mingle are under the direct charge of a faculty committee.

R. A. CARROLL

Holder of World's Record, 60-yard Dash, 6.1-5 seconds. Made when representing this school, January 31, 1914, at Middle Atlantic Championships held at Duquesne Gardens, Pittsburgh

Girls' Suite (Showing Sitting Room and Bed Room.)

Student Organizations

Literary Societies

The Erodelphian Literary Society was founded during the first years of the School. Its purpose is to give students an opportunity for practice in public speaking, and parliamentary tactics. The Huyghenian is a similar society. Both these organizations have well-furnished halls, where they hold fortnightly meetings.

The Lincoln Debating Club

The Lincoln Debating Club is an organization for men students. Its purpose is to develop ready and useful public speakers.

The membership is limited to fifty, and these are divided into three sections, each section debating every third week. The regular program consists of a prepared debate on some

serious question of the day and impromptu speeches on current topics.

The club has the benefit of a Faculty coach.

Fraternities

Omega Chi

The Beta Chapter of the Omega Chi Fraternity was installed here in May, 1909. The organization has grown steadily in strength and influence, and is proud to number among its members some of the ablest boys in the school. It is heartily in favor of clean athletics, and as most of the boys are in some of the teams, it exerts its influence in that direction. At present it has some twelve active members in school.

Phi Alpha

The Iota Chapter of the Phi Alpha Fraternity was organized, February 29, 1908. The purpose of the fraternity is to promote the general welfare of its members. Good moral and intellectual standing in the school is required for membership.

Sororities

Phi Kappa Pi

The Gamma Chapter of the Phi Kappa Pi was organized at Indiana in 1902 with a charter membership of 5. The Chapter at present numbers 16.

Pi Kappa Sigma

The Zeta Chapter of Pi Kappa Sigma, a normal school sorority, was organized here in March, 1909. It supplements the social and literary training of its members, and maintains a scholarship and conduct test for membership eligibility.

In the Steward's Sitting Room

Recreation Period on the Campus

Agonian Sorority, Alpha Kappa Phi

The Grand Chapter of the Normal School Sorority, Alpha Kappa Phi, at their convocation in 1910, granted a charter to a club of girls in our school, and recently installed them as a regular chapter in the fraternity. The organization is of many years standing and is particularly strong in the State of New York, the Alpha Chapter being located at Geneseo.

Alpha Kappa Phi is a link between College fraternities and normal school literary societies, the purpose being to get from school life the highest possible good, mental, moral and social. Teachers are admitted as active members.

Gamma Pi Beta

In 1910 the Gamma Pi Beta Sorority was organized with five charter members. Its object, is to cultivate everything at Indiana which is beautiful, womanly and worthy, and to maintain an honorable interest in all school activities.

Phi Delta Phi

The Phi Delta Phi Sorority organization was formed with twelve charter members in 1910. The Sorority fosters a high standard of scholarship and supplements the opportunities for social culture.

Christian Associations

The students maintain two religious organizations—the Y. M. C. A. and the Y. W. C. A. These associations hold regular weekly meetings for devotional purposes, and occasional social gatherings. The meetings are a source of

In Full Bloom

strength and help to the young people. The associations are factors for good in the School, and new students are cordially invited to identify themselves with them. Committees of the two associations meet all trains at the beginning of the terms to assist and direct new students.

Each of the associations has a furnished hall for its meetings.

The Whatsoever Circle

The Whatsoever Circle is a branch of the Young Women's Christian Association, which has been in operation for many years and has become noted for religious and helpful work of all kinds. Its object is, as its name indicates, to serve whomsoever and wheresoever needed. Its last gift to the school is a small silver service for each of the trays to be used by the sick people.

Alumni Association

Indiana has graduated nearly two thousand teachers, and they constitute a loyal and enthusiastic band of supporters for their Alma Mater. The Alumni Association has been a useful factor, indeed, in the upbuilding of the School. Its services have been numerous and varied. But it is hoped that its influence may be made even more potent. No school can accomplish great things without the aid of a loyal and enthusiastic alumni. Let us not forget the fact that in our union rests the strength that will make us a success in our professional life—that it is the excellence of our work that gives reputation to our Alma Mater, and that her reputation is ours.

The Association holds an annual reunion at Commencement time. There is both a business meeting and a banquet.

Athletics

The Institution's reputation in athletics is so well known that comment is scarcely necessary here; the Football and Baseball teams have for years won a big majority of the season's games, and the Track Team has been the champion team among schools of our rank for years in Pennsylvania and surrounding states. The Football team was the acknowledged champion Normal foot ball team of the State of Pennsylvania, for 1912, and the Scholastic Champions for Western Pennsylvania. Four members of the 1912 team, and 2 members of earlier teams of this school were chosen for the "All Western Pennsylvania Scholastic Football team for 1912".

The past year Indiana has been able again to boast of sterling athletic teams.

The base ball team of 1913, coached by Frank Mt. Pleasant, ranked with the best in the country. The schedule played, with the results of the games, follows:

April 27	Indiana	5	Atona Independents	3
May 3	"	11	Bradlock Independents	5
May 6	"	4	Grove City College	3
May 9	"	6	Barnesboro Independents	3
May 15	"	4	Duquesne University	0
May 16	"	2	Slippery Rock	8
May 17	"	2	St. Vincent	4
May 22	"	2	Bellefonte	4
May 26	"	2	Kiski	7
May 30	"	1	Pittsburg Scholastics	0
June 2	"	11	Kiski	5
June 6	"	2	Chinese Univ., Hawaii	11 (inj.)
June 14	"	5	Duquesne University	2
June 17	"	9	St. Vincent	8
June 21	"	4	Pittsburg Collegians	3

The football team, also coached by Frank Mt. Pleasant, was perhaps the finest working and strongest football team ever seen in a secondary school. Out of ten games played, Indiana won nine—the final game of the season being the only one in which the team suffered defeat. Indiana's defeat in this instance was another case of the upsetting of the 1913 football predictions.

The schedule and results of the games follow:

Sept. 20	Indiana	76	Patton Independents	0
Sept. 27	"	21	Apollo Independents	0
Oct. 4	"	34	Duquesne University	7
Oct. 11	"	27	St. Bonaventure College	3
Oct. 18	"	12	Bellefonte Academy	0
Oct. 25	"	12	Pennsylvania State Freshmen	0
Nov. 1	"	42	Waynesburg College	0
Nov. 8	"	34	W. & J. Reserves	7
Nov. 14	"	20	University Pitt Freshmen	0
Nov. 22	"	7	Kiski	31

Points scored by Indiana—285. By opponents—48.

This Institution pays nothing to the men on its teams, directly or indirectly, and all such men must be *bona fide* students. Our men play for the love of the sport and the glory of Indiana.

The girls' basket ball team was the champion team of Western Pennsylvania for 1913.

Graduation

In order to be graduated from any Pennsylvania State Normal, the candidate must have passed satisfactory examinations under the Faculty in all the branches required in each year of the four-year course, and under the State Board in the branches required in the third and fourth years of the

John Sutton Hall from Ivy Oak

Christmas Festivities in One of the Training School Rooms

course. The candidate must also have spent the third and fourth years as a student in the school, unless a graduate of an accredited college, in which case residence during the fourth year only may be required.

Graduates of second grade high schools may be required to spend but three years in residence at the school; while those from first grade high schools can complete the course in two years, by acceptable work.

Certificate and Diploma

The State Normal Certificate is issued to those who are graduated. It entitles the holder to teach in the public schools of the State for two years without further examination. The State Normal Diploma is a license for life to teach in this State, and is issued to graduates who have

taught in the common schools of the State for two full annual school terms of not less than seven months each after graduation, and who present certificates of successful teaching from each of the school boards, countersigned by the county, city or borough superintendent. A charge of fifty cents is made to cover the expense of issuing this diploma, and an additional charge of one dollar is made if the name of the graduate is engrossed upon the diploma.

Cap and Gown

The regulation cap and gown, sanctioned by the Intercollegiate Bureau and Registry of Academic Costume, are worn by the Seniors of this Institution, upon the proper occasions.

The cost of the cap and gown ranges from \$4.00 up.

🏆 Suggestions to Prospective Students 🏆

How to Enter the School

Upon arrival at Indiana, come at once to the Normal, but a short distance southwest of the Pennsylvania depot, and southeast of the B. R. and P. depot.

The Registrar's office is just to the left of the north entrance of the main building. All preliminary arrangements will be made here, when the students will go to Leonard Hall just north of the main building, to be classified. No student is classified who does not show the Princi-

pal's receipt for payments required at entrance. After classification, consult with the Preceptor or the Preceptress relative to the engagement of a room.

Come Early

Success demands that you be here early. Tardiness in the commencement of a term, or irregularity of attendance after the commencement, is a very serious hindrance to success. Be here and ready for work on the very first day and the very first hour of the term.

Girls' Basket Ball Squad

Time for Thorough Work

It often happens that an ambitious young man or woman limited in means, and desirous of commencing life's active labors as soon as possible, determines to try to do two years' work in one, or that of two in three.

Such a course is scarcely ever advisable. One essential element in the teacher's preparation is time. Solid attainment is never a mushroom growth. Two years' work demands two years in which to do it well; and unless work is well done, the result will prove a source of regret through many years of mistakes, which might have been avoided had more thorough preparation been made. If you need more than a year for your work, and have only the means at command for one year's expenses at school, come for the year, and then, by remaining out of school for a time, make it possible to return and complete your course. It is not an absolute necessity that you graduate at a certain time; it is absolutely essential to your true success that you make thorough preparation.

Visits

Success demands concentration of thought. This is prevented by frequent visits at home or elsewhere, and

usually time thus spent greatly hinders the progress of the student. Make few, if any, visits away from school.

Your Own Books

While you will find many books of reference here, still it is advisable for you to bring all the books you have, that you may make personal and daily use of them. The habit of such use is of incalculable importance, and the school life should ever minister to the formation of such habits as will lead to success in the after walks of life. Bring your books with you; place them where you can conveniently use them, and by their use form a habit, the value of which you can never overestimate.

Clarence Hall for Girls.

Conform

It is the school's interest and purpose to serve you, but this it can do but poorly unless you conform to the life of the Institution. Make up your mind to get all the good out of the school you can. Come with the purpose of being happy in your work, of getting acquainted and entering heartily and cheerfully into the complete life of the school, making it all yours.

The School's Reputation Yours

The Indiana Normal proposes to maintain a high standard of excellence, both as to scholarship and as to attainment of skill in teaching.

Our inquiry is, and will remain, not how many we can graduate, but how many, and who, are thoroughly prepared for graduation.

For the sake of those who shall employ our teachers, and for the sake of the teachers themselves, we desire to make our diplomas valuable and preserve to them their value; and we trust that you will appreciate the fact that you must yourself contribute to so desirable an end.

Additional Subjects on Diplomas

Persons who have been graduated may be examined by any State Board in any higher branches, and the Secretary

of the Board of Examiners shall certify on the back of their diplomas to the passing of the branches completed at said examination.

Degrees

Graduates of State Normal Schools, in the Regular course, and graduates of accredited colleges may become candidates for the degrees of Bachelor of Pedagogics (Pd. B.) and Master of Pedagogics (Pd. M.) To obtain these degrees, candidates must be examined by the Faculty and the State Board upon the studies of the Supplementary Course. Three years' successful teaching in the public schools of the State since graduation (or two years in the case of candidates who taught in the Model School) will be required of all candidates for the degree of Master of Pedagogics, in addition to the branches of Study indicated in the Supplementary Course. Attendance at a State Normal School during the entire Senior year will be required of all candidates for graduation; but candidates for a pedagogical degree may prepare the required work in absentia.

NOTE.—The State Board Examinations in all years will be given at the State Normal School, Indiana, Pa., by the State Board on a date near the Commencement. Those who are to take these examinations, and these examinations only, should be here on the day before that date. Those, however, who are to take the preliminary examinations before the Faculty should be here a week earlier.

Statement of Expenses

	Full year, 40 weeks.	Fall term, 15 weeks.	Winter term 13 weeks.	Spring term 12 weeks.
*Total charge (including enrollment fee, board, room, heat, light and laundry) for boarders preparing to teach	\$200 00	\$75 00	\$65 00	\$60 00
Total charge (including enrollment fee, tuition, board, room, heat, light and laundry) for boarders not preparing to teach	260 00	97 50	81 50	78 00
*Tuition for day students preparing to teach	Free	Free	Free	Free
*Total charge for day students preparing to teach	15 00	5 00	5 00	5 00
Total charge for day students not preparing to teach	75 00	27 50	21 50	23 00
EXTRAS—Drawing	40 00	15 00	13 00	12 00
Typewriting		6 00	5 00	4 00
Shorthand		12 00	10 00	9 00
Elocution—Two lessons per week (private)		15 00	11 00	13 00
One lesson per week (private)		10 00	8 00	7 00
†Domestic Science		3 00	2 00	2 00
†Manual Training		3 00	2 00	2 00

*FREE TUITION.—The State pays the tuition of students who comply with the conditions set forth in the following statute passed by the Legislature of Pennsylvania in 1905:

"For each student 17 years of age, who shall sign an agreement binding said student to teach in the common schools of this State two full annual terms, there shall be paid the sum of one dollar and fifty cents a week in full payment of the expenses of tuition of said students."

Provided, That each student in a State Normal School, drawing an allowance from the State, must receive regular instruction in the science and art of teaching in

a special class devoted to that subject for the whole time for which such an allowance is drawn."

"In case of a deficit in the State appropriation, students at the different State Normal Schools will receive their pro rata share of the appropriation, and will be required to pay balance to the school."

†Persons desiring to take Domestic Science or Manual Training only would have to pay, in addition to this "extra" fee, \$260.00 for the year, proportionately for a term, if boarders; if day students, they would have to pay \$75.00 a year, and proportionately for a term in addition to the "extra".

A Campus Dale

Girl Athletes' Cheer Leaders

The cost of books is an item of expense that cannot be determined, because a student can take a longer or shorter program as he may elect, and because he may own part of the books that he will need; but it has been found, by long experience, that the average rental for books amounts to about \$1.50 per term.

Vacation and transient board, \$1.00 per day; lunch only, \$1.50 per week.

A few rooms have been recently fitted up on the second floor of John Sutton Hall for which a special price is charged. There are also in various parts of the building, a few suites for which an extra charge is made. In the Annex an extra charge of from seventy-five cents to one dollar a week for each occupant is made. These rooms come *en suite*, each occupant has her own bed and wardrobe, and the bedrooms are supplied with lavatories furnishing both hot and cold water. Girls occupying rooms for which no extra charge is made will pay fifteen cents extra per week if single beds are provided, to meet the extra expense of laundry for bed linen.

At the opening of the year, all necessary electric lamps will be furnished free, after which the student will pay for extra lamps.

We have a very limited number of small rooms that are let for single occupancy, at an extra charge of seventy-five cents a week. In case a student is permitted to occupy a double room alone, she must pay one dollar a week for the privilege. If the room is one for which extra rent is charged, the occupant, in addition to the above mentioned charge of one dollar, must pay the full extra that two girls would pay. For instance, if a student were occupying alone one of the best suites in the Annex, she would pay three dollars per week extra. With a roommate, in the same room, she would pay but one dollar extra per week.

AMOUNT AND TIME OF PAYMENTS

Fall Term

At beginning of Term—

All day students taking State Aid will pay . . . \$ 5.00

All day students not taking State Aid will pay . . . 27.50

All boarding students will pay 75.00

The above payments include the enrollment fee.

At middle of term, all bills for extra room rent, music extra charges for any courses outside the regular normal courses, etc., are due from all students. The regular normal tuition amounting to \$22.50 is also due at this time from boarding students not taking State Aid.

Boarding students who are seventeen years of age, or over, and are preparing to teach in this State, do not have the regular normal tuition to pay. Such students, unless they have incurred extras as mentioned above, have only the first payment of \$75.00 to make during this term.

Winter Term

At beginning of Term—

All day students taking State Aid will pay . . \$ 5.00

All day students not taking State Aid will pay . . 24.50

All boarding students will pay 65.00

At middle of Term, bills covering the same items as for the middle of the Fall Term fall due. The regular normal tuition for the Winter Term is \$19.50.

Spring Term

At beginning of Term—

All day students taking State Aid will pay . . \$ 5.00

All day students not taking State Aid will pay . . 23.00

All boarding students will pay 60.00

At middle of Term, bills covering the same items as for the middle of the Fall Term fall due. The regular normal tuition for the Spring Term is \$18.00.

The 1913 Football Squad

How to Pay Bills

An "enrollment fee" of five dollars for each term is charged all students, and is included in all first payments. This fee entitles the student to a ticket of admission to all athletic events, the course of the University Extension Lectures and all other lectures under the auspices of the school.

State Aid is not credited before the end of the term.

Bank Drafts, Checks, Express and P. O. Orders are accepted. Payments must be made, or satisfactorily provided for, before students are assigned to classes.

Students desiring to leave school before the close of the term must report to the Principal and settle any unpaid accounts.

Visitors expecting to remain more than three days are requested to make arrangements in advance with the Principal.

Meal tickets for visitors can be obtained in the Book Room.

All bills are payable to the Principal, and all checks should be made payable to James E. Ament, Principal.

Statement of Expenses in Conservatory

	Full year, 40 weeks	Fall term, 15 weeks	Winter term, 13 weeks	Spring term, 12 weeks
Incidental fee, all students	\$ 15 00	\$ 5 00	\$ 5 00	\$ 5 00
Board, room, heat, light and laundry.	185 00	70 00	60 00	55 00
TUITION FOR FULL COURSE				
Full course in either Voice, Piano, Organ or Violin	120 00	45 00	39 00	36 00
Supervisor's Course for students preparing to teach	95 00	35 00	31 00	29 00
Supervisor's Course for students not preparing to teach	155 00	58 00	52 00	45 00
PRIVATE LESSONS				
Two lessons per week in either Voice, Piano, Organ or Violin	75 00	27 50	24 50	23 00
One lesson per week	45 00	18 00	15 00	12 00
CLASS LESSONS—Two pupils in a class				
Two lessons per week in either Voice, Piano, Organ or Violin	52 00	19 50	17 00	15 50
One lesson per week	30 00	12 00	10 00	8 00
Two lessons per week in either Harmony, Counterpoint, Analysis or History of Music	15 00	5 00	5 00	5 00
JUVENILE COURSE				
One lesson per week, two pupils in a class	20 00	7 50	6 50	6 00
RENT OF INSTRUMENTS				
Rent of Piano (45 minutes per day)	7 50	2 50	2 50	2 50
Rent of Pipe Organ (45 minutes per day)	30 00	10 00	10 00	10 00

N. B.—All pupils taking the Juvenile Course will be required to pay the full term tuition in advance. All others pay one-half term in advance. No tuition is made for lessons lost except in extreme cases of protracted illness.
 N. B.—Students who desire more than two periods a day for piano practice will be given a discount of 50 cents a term for each additional period.

Wilson Hall from Rear

Deductions and Refunds

(Read carefully)

No deduction is made for absence the first two or the last three weeks of a term, for any cause whatever.

For absence four consecutive weeks or more on account of the student's *personal* illness, one-half the paid-in charges for the time lost is refunded; provided the student's physician in attendance certifies that the illness was of such a character as to render the student unable to attend school. A proper blank for this certificate will be furnished by the school.

When a student drops out of a strong and popular school, he vacates a place that might have been occupied by another, who would have remained through the term. The school's expenses for light, heat, etc., are not lessened by the student's dropping out. The teachers who could teach him still remain and draw their salaries. Food for a large school cannot be bought daily on the markets of a small town; consequently, the authorities, calculating on a full school, must buy food in advance for a term, and sometimes for a year. For these reasons some of the best conducted schools will make no refunds for any cause, but insist upon a full year's payment in advance, against which no claims will be recognized. Indiana, however, as indicated above, will share the loss with the parent or guardian where the absence is caused by the student's sickness.

In cases of light illness, a student will be cared for in our infirmary. No charge will be made for nursing. If the attendance of a physician is needed, the student must meet his charge. In case of serious illness, it will be necessary for the student to be removed either to her home or a private hospital, in which case the student must meet the charges.

The school maintains a small hospital to which persons suffering from contagious diseases are removed. Students occupying this hospital are charged five dollars a week for general care, not including that of a physician or trained nurse. No deduction from the regular charges of the Institution is made for such students because of time lost from their classes.

The Infirmary of this Institution, with wards for both sexes, private rooms, dispensary, baths, buffet, etc., is one

of the best and most complete to be found. It is at all times in charge of a professional nurse, of wide experience.

A Comparison of School Expenses

We are often asked by prospective students and parents contemplating the education of a son or daughter, if the charges at Indiana are reasonable. For the information of such we offer the following comparisons:

Indiana's charge for a full year of 40 weeks, for all fees, tuition, board, room, heat, light and laundry, in the Normal Department, is from \$200 to \$260.

The best of the smaller colleges of our State, such as Haverford, Lafayette and Swathmore, charge for board, room and tuition, exclusive of laundry and sometimes class fees, from \$300 to \$575.

Phillips Academy in Massachusetts gives \$465 as "moderate" for tuition, board and room for one year, and \$595 as "liberal".

As an example of the cost of attending one of the great universities of high grade, we mention Princeton, where the *average* cost is \$568 a year.

Many of the country's best private schools charge from \$600 to \$1,500 a year, and the year in such schools seldom exceeds 36 weeks in length.

The State Normal is not designed to be a money-making institution; hence, its charges are kept down to the actual cost of maintenance.

Text Books

Stationery and text books used in the Institution can be purchased at the book room in the main building at regular prices; or the text books can be rented at reasonable rates by those who do not wish to purchase.

Any student entering the Institution, who has been a student during some previous term, will not be given credit in the book room until he has canceled any indebtedness that he may have left standing against him in that department.

In the Third Year the History of Arts and Sciences may be substituted for Cicero, French or German. Geology and Astronomy may be substituted for Solid Geometry and Trigonometry.

In the Fourth Year Ethics, Logic and Sociology may be substituted for Virgil, French and German. Philosophy of Education or Surveying may be substituted for Ethics, Logic or Sociology.

The Training School
Wilson Hall

The above course is based on the "unit" plan as proposed by the Carnegie Foundation.

"A unit" represents a year's study in any subject in a secondary school constituting approximately a quarter of a full year's work.

(This statement is designed to afford a standard of measurement for the work done in a secondary school. It takes the four-year High School course as a basis and assumes that the length of the school year is from thirty-six to forty weeks, that a period is from forty to sixty minutes in length and that the study is pursued for four or five periods a week; but, under ordinary circumstances, a satisfactory year's work in any subject can not be accomplished in less than one hundred and twenty sixty-minute hours or their equivalent. Schools organized on a different basis can nevertheless estimate their work in terms of this unit.)

With reference to CONDITIONS OF ADMISSION it was

Resolved: That properly certified graduates of approved Pennsylvania High Schools of the first grade and City High Schools as listed by the Department of Public Instruction be recommended to the State Board of Examiners for entrance to the third year of the Four Years' Course of the State Normal Schools without examination by the faculty,

and be conditioned in the branches that have not been satisfactorily completed by such students.

Resolved: That properly certified graduates of approved Pennsylvania High Schools of the second grade be recommended to the State Board of Examiners for entrance to the second year of the Four Years' Course of the State Normal Schools without examination by the faculty, and be conditioned in the branches that have not been satisfactorily completed by such students.

Resolved: That properly certified graduates of approved Pennsylvania High Schools of the third grade be admitted to the first year of the Four Years' Course of the State Normal Schools without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.

Resolved: That at the discretion of the faculty, high school graduates may be excused from doing over any academic work in the four years already satisfactorily done in the high school, provided that this be not applied to the review subjects of the third and fourth years.

Resolved: That residence for the last two years be required of all students, except in the case of graduates of four-year courses in colleges approved by the University Council, who may be graduated after one year's residence.

Resolved: That German or French may be substituted for Latin in the first and second years of the Regular Normal Course.

Resolved: That graduates of the three year course be credited toward the four year course with the branches which they have completed in the three year course as required in the four year course.

On the Principal's Terrace.

In the Third Year the History of Arts and Science or German or French may be substituted for Cicero. Geology and Astronomy may be substituted for Solid Geometry and Trigonometry.

In the Fourth Year Ethics, Logic and Sociology or German or French may be substituted for Virgil. Philosophy of Education, or Surveying, may be substituted for Ethics, Logic or Sociology.

Women may substitute in this course Domestic Science for Manual Training. Manual Training or Domestic Science is given once a week through the year.

Normal Preparatory

The following sub-freshmen, or preparatory, year is offered at Indiana State Normal School:

Fall Term		Winter Term		Spring Term	
A Algebra	A Grammar	B Algebra	B Grammar	C Algebra	A Composition
A Arithmetic	A Reading	B Arithmetic	A Spelling	B U. S. History	A Physiology
A Geography		A U. S. History	A Civics		Penmanship

The Principals' Private Veranda

Supplementary Courses for Degrees in Education

[In addition to the Regular Course]

Leading to the Degree of Bachelor of Pedagogics

Philosophy of Education (Horne); Advanced Psychology (James' Briefer Course).

Discussion of Educational Questions (Educational Aims and Educational Values, Hanus); or, School Supervision, including School Law (Our Schools, Chancellor); Pennsylvania School Laws; Devices for Teaching (Teaching of Elementary Mathematics, Smith); Educational Theories, etc. (Education as Development, O'Shea).

School Apparatus and Appliances, Description, Use and Preparation (Physical Nature of the Child, Rowe).

Leading to the Degree of Master of Pedagogics

Two years' teaching after graduation in the Regular Course.

Professional Reading with Abstracts: History of Education in the United States (Boone), European Schools (Klemm), Systems of Education (Parsons).

Sanitary Science, School Architecture, etc. School Hygiene (Shaw).

Thesis.

A full equivalent will be accepted for any of the text books named above. The course in reading and classics for all the courses shall be determined by the Board of Principals at their annual meeting, and shall be the same for all Normal Schools.

N. B. Candidates for degrees pay a fee of five dollars, to cover expense of examination.

NOTE: Substitutions may be made to suit the requirements of the classical, scientific, or engineering courses of the various colleges. French may be substituted for the third and fourth years of Latin; Greek may be substituted for German. Mechanical Drawing, Geology and Astronomy may be substituted for Solid Geometry, Trigonometry and Surveying. Grades will be accepted from accredited high schools.

A college preparatory diploma will be granted to those completing this course. Special courses may be planned for colleges requiring less entrance work, but no diploma will be granted.

Analytic Statement of Courses

Department of Education

DR. AMENT

MISS COLLINS

DR. DREW

MISS ACKERMAN

MISS FULLER

SCHOOL MANAGEMENT:—The purpose of this subject is to lay a foundation for further work and growth along educational lines. Whether the student continues study at the Normal School, or prolongs his undergraduate period by teaching a school one or more terms, he is provided with the point of view and forearmed with the wisdom of the profession. So far as the time allows the student is acquainted with the fundamental principles of school hygiene, of good order, of successful recitation work, and with the relation of the school to the community. Magazine articles, lectures, text-book lessons, and whatever else the instructors may deem helpful in developing the subject, will be used.

The course is given in the Fall and Winter terms of the Freshman year.

SCHOOL LAW:—During the Spring term of the Freshman year the school law of Pennsylvania is studied.

PSYCHOLOGY:—In the presentation of the subject of psychology the instructors aim to follow three lines of interest. These are the dependence of the mind upon the nervous system; the distinctions between mental states, and the applications of the principles established by the science to one's own thinking and to the direction of the

Among Snow Covered Flowers

thoughts of pupils. The first and second of these lines of study have cultural value. They also have professional value, inasmuch as the facts considered form the scientific basis of educational doctrine. Psychology is a three-term subject and is presented during the Jun'or year.

Text: Betts' The Mind and its Education.

METHODS:—The aim in Methods is to get the student to consider the How? of teaching, to realize that aim and plan are essential to efficient teaching. The courses offered extend through the second, third and fourth years, and are designed to provide the student not only with theoretical knowledge, but also with illustrations and experiences ready for application,—all calculated to bring about a better practice of the art of teaching.

Faculty Corn Roast—Night Scene in the Mountains

PENNSYLVANIA STATE NORMAL SCHOOL

The work of the Sophomore year includes the aims of education, the conditions that influence the carrying out of these aims, the preparation of the teacher, and such use of psychological data as gives an objective basis to the conclusions reached. In the spring term of the Junior year methods in history and geography are taught. The State Course of study for the elementary schools follows the course in history presented in the Report of the Committee of Eight to the American Historical Association: hence that Report is made the foundation of the presentation of plans for better work. Valuable aids are found in Johnson's syllabus on the Teaching of History (published in Strayer's Brief Course in the teaching process), and in Winterburn's Methods in Teaching. In Geography, following the State Course of study, use is made of Dodge's Syllabus on the Teaching of Geography (published in Strayer's Brief Course) of Redway's New Basis of Geography, and, for Nature-study, of the Report of the Committee on industrial education in schools for rural communities to the National Council of Education, 1905. Methods in the Senior year deal with reading, language, grammar, spelling, arithmetic and penmanship. The general aim in all subjects is to center instruction about the State Course of study. Because it exemplifies an excellent ideal, the Aldine system of teaching reading is presented with approval. Suzallo's little monograph on Spelling is followed. For the theory and history of Arithmetic, use is made of Suzallo's Teaching of Primary Arithmetic and Bailey's Teaching Arithmetic. In all the work in methods, Winterburn's Methods in teaching is a storehouse of valuable material.

The 1913 Baseball Squad

Readings: The Vision of Sir Launfal.

ENGLISH I. In this course a thorough study is made of the structure of the sentence, the paragraph and the theme. Many short themes are required for the purpose of drill in freedom of expression. Special attention is given to punctuation and grammatical construction. The three principles of rhetoric, — unity, coherence and emphasis, — are studied with reference to their value in good literature and application to the original work of the student. A brief course in the writing of business letters, letters of friendship and formal notes is given.

ENGLISH II. Longer monthly themes are required to give practice in the four forms of discourse. A thorough drill is given in the use of words and idioms. Figures of speech and prosody are carefully studied.

CLASSICS. — In this course such masterpieces are selected as will illustrate the various forms of composition.

LITERATURE. — An attempt is made through lecture, outline and recitation to point out the leading characteristics of each period in English and American literature, with the most important details of the lives of representative writers. The intimate connection of literature with the social, political and intellectual life of the nation of which it is the product and expression is kept in mind. The aim of our brief course is not only to supply the student with

knowledge, but also to refine his thought and feeling, to create a taste and enthusiasm for reading, and to leave him with some knowledge of principles by which he can determine what is best.

In connection with the lives of the authors there is a careful reading of essays, novels, orations, and poems, including at least one of Shakespeare's dramas.

Students preparing for college cover the work prescribed for college entrance, comprising the careful study of four Classics and the reading of ten others.

Smith Cottage for Girls

Required for Study and Practice: (1913)

Shakespeare's Macbeth.
 Milton's L'Allegro, Il Penseroso, Comus.
 Burke's Speech on Conciliation, or Washington's Farewell Address and Webster's First Bunker Hill Oration.
 Macaulay's Life of Johnson, or Carlyle's Essay on Burns.

Required for Reading and Practice:

Shakespeare's As You Like It.
 Shakespeare's Henry V.
 The Old Testament.
 Homer's Iliad and Odyssey.
 Coleridge's Rime of the Ancient Mariner.
 Dicken's David Copperfield.
 Virgil's Aeneid.
 Selections from Browning.
 Selections from Lincoln.
 Stevenson's Treasure Island.

Logic.—The English course is completed by a study of Argumentation, covering Brief-drawing and Argumentative Composition. The student gains practice by exercising his reasoning power on familiar material. The aim is to form in him the habit of looking at a subject in a purposeful way with a sense of the structure of the whole composition, to aid him in his development from the acquisition stage into reflective, modifying, original ng power.

Campus Viewed from Top of
'Power Plant' Chimney

EXPRESSION.—The greatest thing in life is life itself—the study of man, his character and works. The first object of this department, is therefore, to awaken the student; to free him from all constrained, limited, and erroneous habits of thought, action and voice; to open his avenues of expression and to give him a knowledge and control of his agents of expression. We seek to make a well-disciplined physical organism the servant of a well-stored and cultivated mind. It is the object of this department, in the second place, to enable the student to comprehend and appreciate the best literature.

Aside from the regular class work done in this department, a large amount of public work is carried on through the Literary Societies of the school. The Society Contest affords excellent opportunities for public training. The plays given by the Societies each year are a very strong feature of this work, and through them much progress is made along the lines of Dramatic Art.

Two formal appearances before a public audience are required of each student in the senior year.

Department of History

MR. JACK

MISS CRAWFORD

UNITED STATES HISTORY.

Courses:

History A.	History B.	Preparatory Year.
History IV.		Junior Year.

Text Book: Essentials in American History—Hart.
American History—Muzzey.

History A. History of the United States to the War of 1812.

History B. History of the United States from the War of 1812 to the present time.

History IV. General review of United States History.

The aim of the two courses in the Preparatory Year is to furnish an opportunity for preparation to take up the work of the Freshman Year.

The aim of the review course in the Junior Year is to prepare the student to teach American History in the grade schools.

The inter-relation of Geography and History is carefully noted and the industrial, educational and social growth is studied along with the political and constitutional growth. The work is supplemented by as much research in the library as is possible in the time allotted to the subject. Some attention is given to current history, this part of the work being done by means of special topics.

GENERAL HISTORY.

Courses:

Ancient History I. Freshman Year.

Text Book. Ancient World—West.

Mediaeval and Modern History II. Sophomore Year.

Text Books: History of Western Europe—Robinson.

One of the Porch Swings

The aim in this department is not only to familiarize the student with historical facts, but also to develop the historical imagination. To accomplish this, constant reference is made to primary sources. A text book is used as the basis of study, but there is a considerable amount of collateral reading for every lesson. The student is required to draw maps frequently so that he may get a clear picture of those physical features that form the permanent framework of changing political boundaries and movement.

ENGLISH HISTORY.

History III. Sophomore Year.

Text Book: Essentials in English History—Walker.

The chief interest in the study of the History of England is found in its constitutional aspect. The English constitution is a product of the slow growth of the English people through several centuries. It has furnished a model for the constitutions of many other nations. In order to be in complete harmony with the environment, it is necessary for the American of today to understand the origin and growth of our social and political institutions and tendencies. In teaching English History, special emphasis is put on the fact that our American civilization comes largely from English beginnings.

CIVICS.

Preparatory Year. One half term.

Sophomore Year. One term.

Text Books: Rights and Duties of American Citizenship—Willoughby. School Civics—Boyn-ton-Pierson.

The student is given some knowledge of the nature of political authority. He is led to an understanding of citizenship and government in general, before taking up the study of our complex government. The rise of the nation is considered. A study of the history of the constitutional convention is made. A review of the text of the constitution, the meaning of the terms employed, together with the historical incidents to which they refer, are made prominent. The framework of the government—both National and State—is examined.

Department of Mathematics

MR. SMITH MR. GORDON MISS WINTERS
MR. WILEY MR. JOHN E. SMITH

ARITHMETIC.—The work in arithmetic is designed to prepare the student for subsequent work in mathematics or for teaching in the public schools. It also gives him a practical knowledge of the subject and prepares him for business life. The subject is made clear through the use of concrete and practical problems.

The subject of Arithmetic is covered in three terms and the work is approximately as follows:

First Year.

1. Drill in the fundamental operations with integers, decimals and fractions.
2. Denominate numbers, omitting tables that are not in common use.
3. Mensuration and surfaces.
4. Percentage and its application.
5. Interest, including discount.
6. Ratio and simple proportion.
7. Involution and evolution.
8. Drawing plans, plots and maps to scale.
9. Metric system.
10. Practical problems of all kinds.
11. Frequent reviews and drills.

In Miss Cogswell's Studio

On The Grounds of "Fern Cottage", Home of Miss McElhanev

Fourth year.

1. Intensive study of arithmetical principles involved in the fundamental operations in integers, fractions and decimals.
2. Practical mensuration.
3. Miscellaneous problems.
4. Drills demanding alertness and accuracy.
5. Oral work.
6. Emphasize the importance of good English in all solutions.
7. Metric system.
8. Study of banking, stock market, money and other sources of arithmetical problems.

ALGEBRA.—The object of this course in Algebra is to give the student a thorough knowledge of the principles of elementary Algebra, and much work in practical applications thereof. This thoroughness of the course is desirable both for the students who expect to teach in the public schools and for those desiring to do advanced work. The work is planned to assist the student in this further study of mathematics and the study of the physical sciences. The culture value of Algebra is recognized and the student is led to realize the beauties of the subject.

The work is approximately as follows:

First year.

1. Review of fundamental operations, including factoring.
2. Fractions, including ratio and simple proportion.
3. Simple equations with a study of graphs.
4. Involution and evolution.
5. Quadratic equations.
6. Radical equations.
7. Theory of exponents.
8. Binomial theorems.
9. Practical problems.

In order to complete this work in a year, the student should have had a full year's work in Algebra before entering. Quickness and accuracy of thought are predominant aims in the work.

GEOMETRY.—The required work in Geometry covers the ground outlined in Wentworth's Plane Geometry. Solid Geometry, which is elective in the junior year, is based on Wentworth's Solid Geometry.

The body of Geometrical truth is an organized structure, the careful study of which has ever been a stimulus and a discipline to those who have pursued it. The prospective teacher receives a training which is essential in his work as a teacher and in the pursuit of scientific studies. Among the mental and moral qualities which it is the aim of this course to develop are the following: Initiative, self-reliance, and the ability to cope with a new situation. The study of Geometry develops the habit of accurate reasoning, the habit of looking confidently for the solution of every problem, including those of everyday life, of discriminating between the essential features of a problem and those which are not essential.

After a thorough study of the demonstrations of the author, the student takes up the demonstrations of the original exercises. With these he is able to deal, after a few suggestions; this gives him self-reliance and power and he proceeds confidently and accurately. Such a course as this gives the student a mind trained to meet the problems which confront the teacher.

Coming from the Boys' Dormitory

GEOMETRY

Plane.

1. Study of the five books.
2. Correlate algebra, arithmetic and geometry.
3. Practical problems.

Solid.

Continue the work of the preceding year. Make and use models and devote considerable time to practical problems based upon the demonstrations.

TRIGONOMETRY AND SURVEYING.—One term is devoted to Trigonometry and one to Surveying. The Trigonometry is Plane Trigonometry. The work includes the study and use of logarithms, sufficient study of the triangle to prepare for Surveying, the development of the formulas, and practical applications.

The term devoted to Surveying involves the study of the theory of Surveying, but the greater part of the work is actual practice in the field with surveyor's instruments. The students, after some elementary work, run boundary lines, keep notes of all work, and then reduce their observations.

An outline of the work follows:

TRIGONOMETRY

1. Trigonometric functions.
2. The right triangle.
3. Goniometry.
4. Logarithms.
5. The oblique triangle.
6. Practical problems with field work.

SURVEYING

1. Study of instruments for office and field work.
2. Land surveying.
3. Triangulation.
4. Leveling.
5. Railroad work.
6. City surveying.
7. Plotting, blue prints, copying, etc.

HIGHER MATHEMATICS.—Anyone desiring may elect courses in College Algebra, Analytic Geometry, and Calculus.

Department of Science

MR. JAMES

MISS MULLINER

MR. TALBOT

MISS EARL

MISS EYRE

It is the object of this department to secure to the pupil the distinctive advantages which result from correct science study. These we believe to be the power to observe quickly, clearly, and comprehensively, and the ability to deduce legitimate conclusions from the observations thus made. With these ends in view, it is the aim rarely to tell the pupil what he can find out for himself by observation or experiment.

The whole department is now in quarters designed especially for this kind of work. The laboratories are completely equipped with up-to-date laboratory furniture. Much new apparatus has been added to all the laboratories, greatly increasing the value of the work done in this department.

GEOGRAPHY.

Courses:

Geography A. Preparatory Year.

Physical Geography. Freshman Year.

Political Geography. Junior Year.

Text Books: Geography A—Maurey. Physical Geography.

The aim in Geography A is to give the student a general review of the facts of Mathematical, Physical and Political

Geography sufficient to prepare him for the work of the Freshman Year.

PHYSICAL GEOGRAPHY.—The student takes up the study of Physical Geography in the Freshman Year. In pursuing the study, the fact is kept in mind that the majority of the students have as yet little if any knowledge of Physics, Chemistry, etc., and, therefore no attempt is made to burden their minds with those features of the study which they cannot grasp and understand. Yet, though the cause of certain important facts may be complicated as in the case with the atmospheric circulation; or, unknown, as in the configuration of the continents and in the uplift and depression of the lands; and the consequences of other facts may be indirect or remote; nevertheless, these facts are so inherently physiographic, that they are treated as fully as the circumstances will permit, leaving the more complex features for the student's later comprehension. In all this work, attention is frequently directed to the association of human conditions with the environment by which they have been determined, in order to form in the student the habit of looking upon the physical features of the earth in their relation to the progress and development of mankind.

During this term, sufficient time is put on Mathematical Geography to give the pupil a clear grasp of the elementary phenomena connected therewith.

The study of the text is illumined by such field work as is possible, by the use of pictures, diagrams, maps, globes, and the apparatus at hand.

Among Campus Flowers

Coming from Classes

POLITICAL GEOGRAPHY.—The aim of this course is to ground the pupil thoroughly in the facts of Economic and Political Geography; to emphasize the importance of geographical environment and the power man has over his environment. Map-drawing is a constant feature of the work. The work is enriched, as much as possible, by pictures, specimens of various products of different countries, etc. Careful attention is paid to what might be called up-to-date geography, it being deemed worth while that the pupil should form the habit of keeping abreast of present geographical progress. The fact is kept constantly in mind that Geography and History should closely correlate, and therefore, in the study of the former, the pupil's attention is called to many facts and features which will serve to throw light upon the study of the latter.

GEOLOGY.

Junior Year.

Text: A Text-Book of Geology—Brigham.

In Political Geography we have studied the earth with regard to man's activities upon it—cities, farms, factories; in Physical Geography we have considered the earth as the home of man, and learned of its surface preparation for man's use; in Geology we go deeper, and study the origin of the world, its varying forms, and its gradual evolution from primeval fire-mist to a stable foundation for man's multitudinous labors and investigations.

Science and Revelation unite in declaring the world to have been at first "without form, and void"; then that there gradually appeared the waters; then above these, lands arose to view; later came elementary life forms of plant and of animal life; finally, when all was ready, man, the master, entered upon his inheritance.

We first consider Geology physiographically, and review our Physical Geography study; then comes Lithological Geology, the examination of rocks and minerals and soils,

their condition, structure and arrangement; next Dynamical Geology, treating of the causes of Geological events, of the forces which produce earth changes—atmosphere, heat, water, life, etc.; finally, Historical Geology, when earth's pages have been scanned to learn of the successive time-stages when rock layers were laid, and plants, animals and man appeared.

BOTANY.—In the study of Botany an amount of textbook work sufficient to give the necessary technical terms and fundamental principles is required. But the greater part of the work consists in a close study of the types of the most important orders. Special attention is paid to structure and function as affected by environment, and to the inter-relations of the animal and plant worlds.

Large tables have been placed in the classroom where the pupils may perform their dissection and analysis under the guidance of the instructor.

The student is required to collect, analyze,

classify and mount a number of specimens of local flora.

Note-books are used in which the student keeps a faithful record of his observations and deductions.

ZOOLOGY.—This biological subject is studied in much the same manner as Botany—recitation from text book; individual laboratory work, taking up the larger type forms; and field work.

Each student makes his own dissections, keeps a faithful record of actual observations in notebooks, and mounts specimens collected from excursions in the vicinity. He is taught to infer habit from structure, and see life relationships, and the economic value of our fauna.

A well-lighted laboratory, special tables, large tank for living material, aquariums for observing the early development of certain familiar animals, a cabinet of mounted specimens—all contribute to an interest and efficiency in the subject.

Davis Cottage for Girls

HUMAN PHYSIOLOGY.—The study of Physiology is one term's work in the Preparatory Year and one in the Junior Year. This being the first science work which our students take up, it serves as an introduction to scientific methods of thinking and feeling. Our students have seen few scientific experiments performed and have performed still fewer themselves. The method of teaching to which they have been accustomed is the didactic. These facts largely govern the mode of presentation. So far as the size of the class and the time available permits, the students perform the experiments themselves and draw their own conclusions. Here they are led to depend on their own eyes and fingers.

Rather more attention is devoted to the Chemistry of Physiology and to the subject of Hygiene than to Anatomy. In the lectures and talks by the instructor to the students, the attention of the latter is drawn to the experiences of the race in the matter of food, drink, and raiment; and they are led to attach importance to the lessons which the race has learned in these matters. In all the work the cheerful sides of Physiology and Hygiene are emphasized and the morbid sides kept in the background.

CHEMISTRY.—The required work in Chemistry covers a period of two and one-half terms. The student begins the study in the Junior Year after completing such study of Physiology and Elementary Mathematics as may have served to introduce him to the principles of scientific

thinking, preparing his mind for the reception of the more complex ideas involved. Recitation work is supplemented by lectures by the instructor on the more abstract parts of the subject discussed in the text. These lectures, or talks, enable the instructor to keep in touch with the student's progress and to lead him into the subject as the best text is not able to do. Regular hours are assigned for laboratory work and the student's notebook is written up and examined. The laboratory is newly furnished and supplied with modern conveniences. Each student is supplied with a desk and the necessary apparatus to pursue his studies. We require about twice as much laboratory work as is called for by the course of study adopted by the Principals of the Normal Schools.

The aim of this course is to give the student some concept of the large part which Chemistry is playing in our industrial and social life, to impress on the student the value of the subject in bringing us in touch with the world's work in many fields, and to enable him to see the esthetic side of scientific truths. The fundamental character of

Entrance to Blue Room
from Main Corridor

Chemistry in Nature Study is made clear, and experiments are selected to aid him in teaching that subject. That Chemistry is a rapidly developing subject is kept in view, and references are made to its progress.

Supplementing the work in General Chemistry, is offered an elective course in Qualitative Analysis of unknown solutions of metallic salts, this work being continued until the student has mastered the methods employed for the detection of the Metallic Groups. The course is completed by analysis of dry salts, the methods of detecting non-metallic elements being best made clear by this means.

The work in Chemistry is concluded by a course in Quantitative Analysis, during which analyses of less complex rocks, alloys and ores follow quantitative determinations of simple salts by Gravimetric methods. This course should be preceded by instruction in the Elements of Physics.

A student who has completed the work offered should be able to step into the field of Practical Chemistry, and some of our graduates now hold valuable positions in this line.

The courses in this department comply with the entrance requirements of Wellesley, Smith, Princeton and other colleges. Many of our graduates are teaching Science subjects in High Schools, while others hold good positions with industrial corporations.

PHYSICS.—The course in Physics extends through the Senior Year. The aim is to cultivate a keen understanding and appreciation of common natural phenomena, and a deep sympathy for what is scientific in a scientific age.

The method used is to combine recitations with as much individual laboratory work as possible. Class demonstrations and practical problems in the different topics supplement and fix the theory. At least twenty-five experiments

At the May Festival

illustrative of fundamental principles are required. The experiments are performed individually by the student and carefully recorded in special note-books.

The large and well-lighted laboratory has been planned and built along modern lines, and is equipped with new laboratory furniture and apparatus. The tables are provided with uprights and adjustable bars; and the apparatus comprises many costly pieces, while other pieces, though verifying fundamental laws, are yet so simple as to be easily duplicated by our graduates in schools lacking facilities, and in their teaching of Elementary Science and Nature Study.

Department of Latin and Greek

MISS BODINE MISS CRAFTS MR. JACK

The number of students preparing for college has steadily increased during the last few years. Vassar, Wellesley, Mt. Holyoke, Lafayette, Washington and Jefferson, Westminster, State, Michigan, Cornell and other colleges, receive students upon our certificate.

LATIN.—The Roman pronunciation is used.

In the Freshman Year, three terms are spent on Pearson's Essentials of Latin. There is constant drill in the Latin forms and inflections, and in the general principles of Latin syntax. It is desired that the student have a good knowledge of English before taking up this branch, since the idioms of the two languages are constantly compared.

In the Sophomore Year, three terms are devoted to Books I-IV. of Caesar. Here, in addition to the literal and free translation of the text, there is constant drill in the derivation of words, and in the use and force of the cases, the modes, the tenses, the principles of indirect discourse, the periphrastic conjugation, etc. Some time is spent in a careful study of Caesar's life and of the Roman life of his time.

In the Junior Year, the same method of study is continued, making six orations of Cicero the basis; four against Catiline, Archias and Manilian Law. The life of Cicero is also studied, together with the occasion of the delivery of each oration, and the historical facts connected with

each. One lesson a week is devoted to Latin composition.

In the Senior Year, Books I-VI. of Virgil's *Aeneid* are read. Besides the drill on the usual grammatical constructions, special attention is paid to the constructions peculiar to Latin poetry, to figures of speech, and prosody (metres and versification). The attention of the student is called to the fundamental difference in the character of English and Latin poetry. The mythological characters, the life of Virgil, and Latin composition are also studied.

Summary

First Year.

1. Elements of grammar and vocabulary of at least 500 words—thorough preparation to read Caesar.

Second Year.

2. Four books of Caesar, with close attention to grammar and Roman history of the period.

Third Year.

3. Cicero; six orations, with special attention to composition and English derivatives.

Fourth Year.

4. Virgil, six books; Composition: special attention to Mythology and poetic forms.

GREEK.—It is the aim not only to implant a thorough knowledge of the forms and principles of syntax, but also by means of reading at sight and other exercises, to enable the student to use the language in a practical way. In this way the student comes to look upon Greek, not as a "dead" language, made up of a mass of forms and rules, but as a legacy of a cultured people.

The reading of the Greek authors includes Xenophon's *Anabasis* and Homer's *Iliad*. If desired, other authors may be studied. In connection with these, the history and customs of the Greek people are studied. Pearson's Greek Prose Composition is also used.

Preparatory students are given the amount of Latin and Greek required by the institution to which entrance is sought.

Among the Campus Flowers

Miss Leonard with some of the Class of '88 and Their Children back for 1913 Commencement

Department of Modern Languages

MR. BOWMAN
MISS BAUMBACH

English is the most widely spoken language of the world, German follows a close second, and French stands fourth in this comparison. German literature contains some of the most scholarly works of the present and past. It is noted for its philosophic thought and scientific works. The merits of the French language lie in the beauty, elegance and precision of expression. He who masters this tongue has access to some of the choicest literature.

What is gained by the study of a foreign language? Would a student not profit more by devoting additional time to the study of his vernacular instead of spending it on a language which he will perhaps never have occasion to use? The translation of any language requires a student to use his native tongue and thereby he becomes skilful in the use of it. The characteristics of a people's thought and nature are expressed by their language. A man becomes a German in so far as he masters the German language. The study of foreign languages enriches the spiritual nature of man.

The object of this department is to give the student an

introduction to German and French. Special attention is given to the salient points in Grammar and the practical use of the spoken and written language. To make these courses as interesting as possible, a German club has been organized; special provision has been made in the dining-room for those who desire to speak German or French at the table. Such diversions of the study train the student to think in the language he is studying.

In the first year particular emphasis is laid on pronunciation, conjugation of verbs and on the essential principles of syntax. The second year's work consists of composition, advanced grammar and extensive reading. Poems of the best writers are committed and some time is devoted to exercises in dictation. The drill in conversation is based on the text used in class. These remarks apply to both languages.

Courses in German are offered for those who desire to continue the work beyond the second year. The first year of German or French may be used as a substitute in the Junior Year; the second year's work may be substituted in the Senior Year.

German Texts: Bacon's German Grammar; Joynes-Meissner's Grammar; Storm's Immensee; Wesselhoef's Composition; Moser's Der Bibliothekar; Schiller's Jungfrau von Orleans; Goethe's Hermann und Dorothea; Wildenbruch's Das Edle Blut; Riehl's Der Fluch der Schoenheit; Schiller's Wilhelm Tell; Goethe's Egmont, and Schiller's Maria Stuart are read.

French Texts: Frazer and Squair's French Grammar; Super's French Reader; Labieche's La Grammaire; About's La Mère de la Marquise; Mérimée's Colomba, Dumas' Le Comte de Monte-Cristo; French Short Stories representing the best modern French authors; Koren's Exercises in French Composition are used.

Miss McElhany and a Sketching Party on Twolick Creek

Department of Agriculture and Manual Training

MR. JACKSON

"At the head of all sciences and arts, at the head of all civilization and progress, stands not militarism, the science that kills, not commerce, the art that accumulates wealth, but agriculture, the mother of all industry and the main-tainer of human life."

The course in agriculture is designed to prepare the students to teach in the public schools. Methods of presenting the subject are explained and many exercises are given which may be used in their work.

Practical work in the vegetable and flower garden is required. Field trips to farms are taken in order that the student may become acquainted with the regular work of the farm.

I. Course.

The nature of plants.

Roots, stem, leaves, flower, fruit, seeds.

Propagation.

Seed, bulb, bud, graft, cuttings.

Soils.

Origin, kinds, humus, moisture, drainage, tillage, improvement, fertilizers, manures.

Farm Crops.

Cereals.

Corn, wheat, oats, rye, barley, buck-wheat.

Forage.

Grasses, alfalfa, clovers, vetch, peas.

Tubers.

Potato.

II. Course.

Domestic animals.

Horse.

Types of horses, breeds, care, age, feed, diseases, and remedies.

Cattle.

Types, breeds, care, feed, diseases, remedies, milk, testing of milk, cream, and butter.

Sheep.

Types, breeds, care, feed, diseases.

Swine.

Types, breeds, care, feed, diseases.

Poultry.

Types, breeds, housing, feed, incubators, brooders.

III. Course.

Fruits.

Apple, pear, peach, plum, cherry, and small fruits.

Forests.

Garden.

Cabbage, celery, onions, lettuce, radish, beets, carrots, cucumbers, melons.

Farm management.

The choice of a farm.

Location of buildings.

Buildings.

Arrangement of fields.

Rotation of crops.

Farm records and accounts.

Ugan Cottage for Girls

Among the Oaks

Manual Training is not, as some suppose, a study of the elements of certain trades; but a good course in Manual Training is invaluable as a preparation for any trade or vocation. Would a student not profit more by devoting additional time to the study of his vernacular instead of spending it on a language which he will perhaps never have occasion to use? The translation of any language requires a student to use his native tongue and thereby he becomes skilful in the use of it. The characteristics of a people's thought and nature are expressed by their language. A man becomes a German in so far as he masters the German language. The study of foreign languages enriches the spiritual nature of man.

The object of this department is to give the student an

The course in Manual Training requires the construction of such objects as will give the student a broad knowledge of the principles involved in wood construction and finishing.

Each student is furnished with a blue print of the course to be constructed, thus correlating by application the principles of Mechanical Drawing and Manual Training. After satisfactorily completed the prescribed course the student is allowed to construct one large piece of furniture, such as a table, a taboret, a magazine cabinet, etc., particular attention being given to the latter of original design and workmanship in construction and finishing. The educational value of Manual Training is kept constantly in mind as the chief end and object of the subject.

The course in Basketry is designed to prepare the student for teaching in the public schools. It consists of French raphia and reed work. The students are required to weave La Mère baskets in the Navajo, Lazy Squaw, Maraposa and Le Comtois weave. In the reed work, a napkin ring, a placemat and two baskets are required. Special attention is given to the French design.

Department of Household Arts and Science

MISS. GOODSPEED.

"The secret of thrift is knowledge. Knowledge of domestic economy saves income. Knowledge of sanitary laws saves health and life."

THE HOUSE. This course includes the following:

A brief study of early human habitations and a comparison of the homes of those people with the homes of today.

The development of the American home; reasons for the changes which have taken place and are taking place; the effect of changes on home life.

Some problems involved in the building of a modest house: (a) the selection of the site, soil, drainage, surroundings, accessibility, improvements; (b) the drawing of house plans adapted to the site; (c) the cost and relative value of building materials; (d) the construction of the house, cellar, foundation, walls, and roof; (e) heating, lighting, and ventilating; (f) the plumbing system of the house.

The decorating and furnishing of the house considered as to sanitary value, artistic value, quality and cost.

Care of the house from the sanitary point of view.

COOKING.—The aim of this course is to give the student the principles of the selection and preparation of food, a study of protein, carbohydrates, and fats, with the effect of heat on them and ways of cooking them; a study of meats and vegetables, with a comparison of animal and vegetable foods and ways of preparing and combining them; the cost of food in relation to its composition; different functions of food in the body; laboratory work involving all the common processes of cookery, with the preparation and serving of simple meals.

SEWING.—The aim of this course in sewing is to give practical understanding of the uses of the various stitches and seams through the making of simple articles by hand. Machine work is begun on simple articles which will give practice in straight stitching. The elements of pattern cutting and fitting are considered in the making of such articles as night-gowns, corset-covers, drawers, tailored waists, and one-piece dresses.

The Dugan Cottage for Girls

Department of Physical Training

MISS EYRE

Four terms of this work are required. During the winter term, all of the young women living in the dormitory are required to take Physical Training.

The aim of this department is three-fold: educational, hygienic, recreative. The course is outlined to prepare students to teach this subject in public schools.

The work consists of indoor and outdoor exercises. Indoor work includes running, military tactics, drills with hand apparatus, esthetic and folk dancing, gymnastic games and basket-ball. Hockey, basket-ball, tennis and field athletics are enjoyed on the campus.

The basket-ball team is a feature of this department. They play a number of games with other schools during the season. The girls composing this team, for the past year, were the undisputed champions in Western Pennsylvania in schools of our class.

Normal Art Course

TWO YEARS (SIX TERMS)

"Teachers having a superficial grasp of the principles governing art education, ready to float hither and thither as the current leads them, should not be given power to try experiments on children, thus exerting not only a harmful influence upon the individual but indirectly upon his environment as well." — *Walter Scott Perry.*

On the Baseball Diamond

The aim of this course is to train teachers to teach and to supervise the teaching of drawing and the applied arts in the grades and in High School; to cultivate the faculties; and to cultivate an appreciation and a desire for the beautiful.

Conditions of Admission.—Graduates of a state normal school are admitted without condition and may be able to complete the course in one year. Graduates of a four-year High School course are admitted to the Junior Year and graduates of a three-year High School course are admitted to the second year of the regular Normal School Course. Students having completed this second year may be admitted to this course. Teachers of experience may be admitted and be conditioned in the branches that have not been satisfactorily completed by such students. Credit may be had for any subjects in which the student passes a satisfactory examination. Students in the Normal Art Course are strongly advised to complete the regular Normal School Course.

Course of Study.

The work requires from five to eight periods a day and includes the Pedagogy and English of the Junior and Senior Years of the regular Normal School Course— Botany, Plane Geometry, Mechanical Drawing, Basketry, Manual Training, History of Painting in addition to the following:

Methods, observation and practice in teaching under strict supervision and criticism.

The planning of a course of study in Drawing and the Applied Arts for the grades and High School.

THE APPLIED ARTS:—Elementary book-making and cardboard construction, weaving, netting and knotting, and leather work.

Advanced drawing (two periods daily throughout the course). This includes nature work in the different mediums, freehand perspective, pencil sketching, light and shade, still life, modeling, lettering, historic ornament, figure drawing, design and composition, wood block printing and stenciling.

Advanced Drawing Course

TWO YEARS (SIX TERMS).

The work of this course constitutes a part of the Normal Art Course but is open to special and regular students of the school who have completed the elementary drawing or an equivalent, and who desire a term or more of advance work; as well as to those students who wish to complete a course without the professional requirements. Students may be admitted at the beginning of any term.

Course of Study

History of Painting.
Basketry.

The Normal Conservatory

Foreword

Our aim is to make this school in every respect all for which its name stands. The work of the Conservatory is most carefully to develop both the technical and the artistic, while the Normal Training work is calculated to prepare the teacher.

It matters not whether it be Voice, Piano, Violin or the Supervisor's Course that is being pursued, our aim is carefully to train both the artist and the teacher in such a way as to fit them for life-work with so sure a foundation and so thorough a knowledge that they may reflect credit not only upon themselves, but also upon the school. The Conservatory is conducted after the manner of the best, found either in this country or in Europe. The Normal training will be quite distinct in itself. Certain features of it can be found in no other school in the country.

The Teachers

The teachers are experienced and have won for themselves pronounced distinction both as teachers and artists, representing the best training in leading conservatories

A Tea Party on the Campus

and music schools, and with the best of private teachers. All are influential in stimulating their pupils to put forth their best efforts, taking a personal interest in each individual. Those who come for simply "a good time", will not enjoy the school, as the spirit of progress and work is fostered and insisted upon. Pupils are brought into such close relations with the teachers in their everyday work that they are constantly receiving an impetus for good along all lines. Frequent recitals, both private and public, concerts, ensemble, all combine to create an atmosphere of industry. Parents may rest assured that their children will find friends as well as instructors in the teachers.

Courses of Study

The courses of study embrace all that is necessary in order to acquire a thorough technic, artistic interpretation and a musical education in its fullest sense. Students may elect the major subject either in Voice, Piano, Organ, or Violin, or other orchestral instruments. In this they receive two lessons per week. Students who elect as the major subject either Voice or Violin will be required to take one lesson a week in Piano until they complete the Sophomore course in the same. The Piano is made the basis of all courses of study. While we outline a four years' course corresponding to those of the State Normal School, it must be understood that it may take longer to complete a course in music, and on the other hand a good student might be able to do the work required in less than four years. Where students have never studied theory—that is, Harmony,

Y. M. C. A. Strawberry Festival

Counterpoint, History of Music, etc.—it will require at least two full years to master these subjects, all of which are necessary before one earns the right to be called a musician.

Supervisor's Course

We desire especially to call attention to the superior advantages found at Indiana for the training of Supervisors of Music for public schools. It was largely owing to the fact that the Director of the Conservatory, after years of experience and observation, while visiting schools in different parts of the country, became convinced of the need of a more thorough training on the part of the supervisor as well as of the grade teacher, that he was led to give his assistance in the establishment of a training school where both knowledge and experience could be obtained by those who wished to enter this important and wide field of labor. The course embraces all leading systems and methods, and our graduates are prepared to use any one of them.

After a careful study of methods, devices, etc., students are required to give experimental lessons before the class, following which free criticism is made both by members of the class and the teacher in charge, and when found proficient they are required to teach throughout the several grades of the Model School, which enrolls upwards of two hundred children. In addition to all this, graduates must have completed the required course of study in Voice, Piano, Theory, History of Music, English, History of Education, Pedagogy and Psychology. Theory of Music includes Harmony, Counterpoint to Fugue writing and Instrumentation to the extent of being able to arrange music for instruments of the modern orchestra, as we contend that every supervisor should be able to do this in order to afford pupils who play such instruments as violin, cornet, flute, etc., an opportunity to accompany the voices as well as to improve themselves.

We are continually receiving letters of inquiry for good supervisors, and we advise Normal graduates and experienced teachers to take up this work, provided they are musically inclined. There is a great demand for Supervisors of Music and Drawing, the two working well together.

Additional information can be had regarding this course by corresponding with the director.

Preparatory Course

For all students who may elect a regular Course and are not prepared to enter the Freshman Year, a Preparatory Course is provided which includes such studies as are necessary to prepare them for the regular Course. This course can be taken only in class of two at a reduced rate, or at regular rates as the student may elect.

Juvenile Course

This course is for beginners under fourteen years of age who may desire to study either piano or violin. There will be two pupils in a class and the period is divided between them. The tuition is about one-third the regular rate. This course includes one lesson a week in violin or piano.

Private Lessons

While it is required of all graduates that they take a full course, any may take such lessons as they desire upon the payment of the regular rates specified in the catalogue.

Class Lessons

Harmony, Counterpoint, History of Music, Solfeggio, Sight Reading, etc., will be taught in classes. Students not taking a regular course have the privilege of entering these classes and will be charged the regular tuition.

The Madrigal Club

The Madrigal Club is a vocal musical organization for women students only. The best part-songs are presented from time to time.

Men's Glee Club

A glee club composed of men's voices is maintained.

The Choral Society

The Choral Society, including the students and leading singers of the town, is a pronounced feature of the musical life of the school.

Works such as "The Messiah", "Elijah", "Creation", "Joan of Arc", "Fair Allen", "Phaudrig Crohoore", "Gallia", "Hiawatha Cycle", and many miscellaneous numbers have been given.

Orchestra

A large orchestra is maintained, which affords all who study orchestral instruments an opportunity to play under an experienced conductor.

String Quartets and ensemble of various instruments are frequently called together for the benefit of those who play such instruments.

A Military Band of fifty pieces, completely equipped, known as the Indiana Military Band, conducted by Mr. Cogswell, offers a splendid opportunity for any who study wind instruments.

Examinations

Regular term examinations will be held, and those taking a full course must give satisfactory evidence of having met the full requirements before being promoted to a higher grade.

Literary Requirements

Candidates for graduation will be required to show a thorough knowledge of the "common branches". Graduates of four-year high schools or those having passed the Sophomore Year of any State Normal School are accepted without examination.

Diplomas

Diplomas will be granted to those who complete a full course.

Expenses in the Conservatory

See index in back of catalogue.

Information

For further information, regarding courses of study, etc., apply to the Director, Hamlin E. Cogswell, for special catalogue.

Foreword

Successful men and women of every calling in life recognize the advantages of a thorough business education. To those who intend to pursue an active business career, such training is an indispensable aid. For this reason, and in order to furnish teachers for business departments in high schools, the commercial department was added to our school several years ago. Its object is to instruct young men and women in the laws, customs and forms of business; to cultivate in them habits of neatness, accuracy and thoroughness of work; to familiarize them with practical business problems, and in every way possible prepare them for successful business careers. The teachers are of the regular school faculty and are specialists in their several lines.

"Bookkeeping and Accountancy" and the accompanying budget systems, by H. M. Rowe, Ph. D., are taught. This system is a radical departure from the ordinary methods of teaching Bookkeeping. The student learns nothing which he will be asked to forget when he secures a position.

He takes up the work of a bookkeeper at the first, keeps the most practical books of original entry, is advanced step by step until he has acquired a thorough knowledge

On one of the Tennis Courts

of the duties of a bookkeeper, thoroughly understands the principal accounts in all their applications, is proficient in all the calculations pertaining to his position, and has secured what may be termed a thorough knowledge of Bookkeeping.

After mastering the elementary budgets, a student who wishes to specialize in such work as Farm Accounting, Lumber Accounting, Cost Accounting, and so forth, may do so.

After completing the work in Bookkeeping, the student is given a course in American National Banking, budget C of the H. M. Rowe series. A complete exposition of American National Banking as it is practiced is offered and the student performs all the duties of the various officers of the bank, the Cashier, the Assistant Cashier, the Teller, the Discount Clerk, the General Bookkeeper, the Individual Bookkeeper and others.

After the student reaches advanced Bookkeeping, he is permitted to use the Burroughs Adding Machine in certain operations and is taught the various uses of this most necessary of modern office appliances.

In the Shorthand and Typewriting Department it is our aim to prepare students for such duties as every stenographer must perform, whether employed as an amanuensis, private secretary or reporter. In every line of employment—commercial or professional—there is an active demand at all times for good stenographers. No other profession offers so many opportunities for the ambitious young man or young woman to advance to positions of influence. All that is necessary to enter upon this line of work is the requisite preparatory training which we aim to provide here.

We teach Graham Standard Phonography. Nearly half the professional shorthand writers in the United States write this system. Its superiority over all the "easy to learn" systems lies in the fact that the student may push to any desired rate of speed. Many inferior systems, so widely advertised today, are adequate only for certain limited requirements of amanuensis work, where speed is not essential. After mastering thoroughly the scientific principles on which Standard Phonography is built, even indifferent penmen are able to follow the utterances of the most rapid speakers.

Up-to-date filing systems are taught in this department, and our students will go out well prepared to meet any requirement in this important branch of business training.

Time Required

Our Commercial Courses are longer than those of many business schools but we believe that fundamental to a successful business training, is a thorough common school education. Those who are deficient in this respect enter the classes in Grammar, Composition, Civil Government, United States History, Geography, Spelling, Arithmetic and so forth, along with the students who are taking the regular normal course, and are required to do the same work in these branches as those who have to pass the State Board Examinations. Special examinations are given in these branches, and students need not take such studies in class as they are able to pass in this way.

Some Advantages of Taking a Commercial Course at Normal

In addition to the splendid equipment of the Department itself, Commercial students of Indiana have many advantages absolutely unknown at the great majority of business schools. They have access to the large Normal Library and Reading Room. The latter is equipped not only with all the leading magazines and daily city newspapers, but also with the weekly publications from the home towns of many of the students. Commercial students are always welcome additions to the literary societies, debating clubs and Christian associations of the school. Socials, lectures, concerts, plays, etc., provided by the Normal School are at the disposal of the Commercial students. Many young men who come to Indiana for business courses, in addition to securing the business training for which they come, develop into great athletes. Our expert coaches always find the earnest, hard-working Commercial students a splendid body from which to build up their great football, baseball and track teams.

Music.—Students taking the Commercial Course have an excellent opportunity to take voice culture or instrumental music along with the Commercial work. Many students do this.

Lectures.—It has become a part of the settled policy of this Institution to give to its pupils the opportunity to hear in their own halls lecturers of eminent ability on subjects supplementary to the regular work, or of universal interest.

Influence.—It pays to attend a school that is widely and favorably known, for much of the future success of the

student depends upon the character and influence of the school from which he is graduated. An Indiana Diploma is a passport into the best positions of the State.

Positions

We do not guarantee positions to graduates of our Business School, but we are watchful and zealous in our efforts to place them as soon as they step out of the school.

At the present time we are unable to supply the demand for our graduates, and we do not doubt that this condition will continue.

Detailed Information

If you desire to know more of the work done in our Shorthand, Bookkeeping and Banking Department, address A. E. Kinsley, Head of Business School.

Scope and Function of the Training School

The training department consists of a school of about two hundred and fifty students. These are carefully divided into eight grades corresponding to the grades of the most approved elementary schools of the country, and an advanced class composed of those who have completed the regular Model School Course and are prepared to take up the work of the Preparatory Year.

The regular work of the school is systematically supervised by trained and experienced critic teachers. They are responsible for the progress of the children and the training of the pupil teachers. The special work in music, drawing and manual training is under the direction and control of specialists in these branches.

Wilson Hall, a modern building and one of the most attractive on the campus, is given over entirely to the use of this department. It is commodious, conveniently located, and is well equipped for the purpose which it fills.

All the work of the pedagogical department centers in the training school. Its purpose is to afford the members of the Senior Class an opportunity to put into practice the principles of education which have been emphasized throughout the entire course, to send them out with a very practical knowledge of the theory and art of teaching, and with the confidence and judgment which arise from actual experience in the school-room.

To this end each candidate for graduation is required to teach at least two terms satisfactorily in the Model School. The work is so arranged that experience is gained in both the primary and grammar departments.

Students begin their observation and practice work in the Senior Year. A class numbering from fifteen to twenty children is assigned to each for a period of twelve or fifteen weeks. The Seniors then report to the critic teacher to whose department their work belongs. Instructions are given with regard to the general management of the class, the work to be covered, use and care of materials, methods

to be covered, and incidents incidental to the a

The pupil-teacher prepares the daily lesson. These plans are submitted to the teachers and are carefully examined and corrected the day before the lesson is presented. They are written in accordance with the following outline:

- *I. Aims. II. Illustrative Material.
- a General. III. Basis.
- b Special. IV. Subject Matter—Method.

The plans should show most clearly that the teacher understands the child, his interests, capacity and limitations. They should show that she understands the subject to be taught and the end and aim in presenting it. They should indicate that she is acquainted with the child's past experience and properly appreciates his fund of ideas. Fertility in illustration and device, skill in questioning and thoroughness in drill should mark both plan and presentation.

Seniors who are teaching are required to meet their critic teacher for general criticism one period a week. In this criticism class, general topics relative to the work are

*See McMurry's "Method of Recitation".

Captain White Circling the Pittsburgh University Freshmen for Touchdown

Miss Leonard's Apartments

discussed, general mistakes are noted, reading along professional lines is assigned, and the various problems of the school-room are talked over.

In addition to the criticism class, appointments are made for individual criticism, the critic teachers reserving Saturday afternoons and the hours between 3:30 and 4:30 each day for this purpose. At these times, criticism may be more pointed and personal. The endeavor will be to establish such a relation between the pupil-teacher and the critic that errors and faults may be discussed most freely and without any misunderstanding as to motive. It is, however, as much the duty and desire of the critic teacher to discover and develop latent power and ability as to note and correct faults in personality and pedagogy.

Illustrative lessons are given frequently by the critic teacher. These are observed closely by the Seniors, who should be prepared to take part in a discussion concerning them in the criticism period.

In directing the special work of the school, such as the observance of Thanksgiving, Christmas, Washington's Birthday and Arbor Day, the Seniors are expected to take active part when called upon. Training along this line is invaluable.

Reading and Literature

The general aim in the subject is to give the child the power to interpret the written or printed symbols by which thought is conveyed, to arouse an appreciation of what is best in literature, to awaken the desire to read, and to train him to give out the ideas thus obtained with correctness, clearness, and the right kind and degree of feeling. A proper conception of the aim of instruction in this branch determines the method to be employed and the material to be used.

In the lower grades the teacher must of necessity concern herself to a very great extent with the mechanics of reading, the problem of teaching the children to recognize words in groups. To this end a combination of the word, sentence and phonic method is used, the sentence being regarded as the unit of thought. Phonics are introduced gradually, chiefly as a means of making the child independent in mastering new words, and in affording exercises in correct enunciation.

The first reading lessons are based largely upon Nature Study and upon the poems and stories used in the language lessons. They are chiefly the expression of the child's thought along these lines.

Nursery rhymes, fairy tales, stories of adventure, Greek, Roman and Norse myths, English and American History stories, and the best poetry that the field of literature affords, are the sources from which materials are drawn throughout the course.

It is not enough that the children pronounce the words correctly and with ease; they must comprehend the thought, they must feel its force and significance, they must enter into the life and ideals of the great minds of the world. With them they must dream—with them they must create.

The selection of material to be used in the various grades is made with care, in order that it may be suited to the interests and capacity of the children, and to the other studies which they pursue. No attempt is made to force upon them literature which is entirely beyond their ability to understand and enjoy. Their development in taste and power to interpret is natural in all senses of the word. Every selection used is elevating in its influence and has in it something which appeals especially to the nature of the particular children to whom it is presented.

Uncapher Cottage for Girls

A Corner

Arithmetic

Girls in Arithmetic Class

The children are encouraged to read outside of school. Books, papers and magazines are provided for their use. Quite a broad course of supplementary reading is planned for each grade, and special periods are set aside in which the teachers read to the children, stories and poems which are profitable and interesting.

In oral reading care is taken to see that the children speak clearly, in a pure tone and pleasing manner.

Language

Only through an exercise of the power of expression which the child already possesses will he gain additional power in the correct and pleasing use of his mother tongue and in the world, social and commercial, perhaps no faculty contributes more than this to success.

The first step in developing expression is to arouse thought and awaken ideas. To this end all the subjects of the school curriculum may be employed and all of the occupations and activities of the school-room and playground should be made to contribute. The entire world of childish experience and knowledge may be drawn upon for the materials for language training.

It is, however, through long sustained effort and practice under "never ceasing watch and correction" that the art of correct speaking and writing is obtained. It is the duty of the school to afford this practice and to exercise this surveillance in order that there may be a development of the power to speak without effort and with freedom from grammatical errors, popular slang, and the crude provincialisms to which the average American is prone.

For the reason that oral speech is used to the greatest extent, oral language training should predominate. Each teacher in every recitation will prove herself an efficient ally of the language teacher if she will insist upon good English in response to every question asked. The result will be manifest in the formation of right habits of speech. In fact, this is an imperative condition to the accomplishment of the aim of the school in this direction.

The course of study indicates the general character of the work. The lessons may be divided into three classes - conversational, formal and written. In the Sixth Year the study of English grammar is begun.

In the conversation lessons the pupils are required to reproduce stories which they have heard or read, to describe places which they have visited, to narrate adventures in which they have taken part, or to enter into discussion or debate on some question of interest to them as individuals or as a school. The impromptu dramatization of stories leads to a vigorous style and is a splendid means of arousing the imagination and increasing the child's vocabulary.

The written exercises are frequent but short. A child loses interest and zest if he is required to write too much. He becomes fatigued and as a result does careless work, thus defeating the purpose of the lesson. Nearly all written exercises are done in school under the watchful eye of the teacher. In the lower grades sentence work only is required; gradually the pupils gain the power to reproduce the stories of the reading and literature lessons, and to write up the accounts of the imaginary journeys in Geography. They keep a journal, a weather record, a notebook for their observations in Nature Study and their themes in History. Finally they arrive at the stage of original composition. No slovenly work is accepted. Little re-writing is permitted. The first draft must represent the best effort of which the pupil is capable.

Girls' Athletic Stunt

On Boys' South Veranda

Formal Language lessons are few in number. Under this head the dictates of custom in punctuation, capitalization and sentence structure may be considered.

Although the study of grammar is deferred until the Seventh Year, the more common Grammatical terms may be used freely as occasion requires much earlier in the course.

Nature Study

The work in Nature Study is based on the child's observation and experience. All reading that is done in connection with this subject follows, not precedes, original investigation.

The materials are the every day natural surroundings of the child, seen so far as possible in their natural environment. In determining the order of subjects and the methods followed, the teacher should be guided very largely by the season of the year and the stage of the development of the pupil.

The purpose of Nature Study may be stated briefly as follows:

It develops the perceptive faculties, strengthens the imagination and develops the reflective powers.

It aims to cultivate the esthetic sense.

It gives "an insight into the laws of Nature and teaches the child to make use of these laws in answering his reasonable needs".

It inculcates moral and spiritual lessons, leading to greater sympathy, kindness and consideration for others.

Geography

"Geography is the study of the earth as the home of man." In presenting the subject the teacher should choose topics which will lead the pupil to see how races and people have been affected by natural environment, and how natural conditions have been and may be changed and modified to best serve the interests of mankind.

In the lower grades the teacher must of necessity concern herself to a very great extent with the mechanics of reading, the problem of teaching the children to recognize words in groups. To this end a combination of the word, sentence and phonic method is used, the sentence being regarded as the unit of thought. Phonics are introduced gradually, chiefly as a means of making the child independent in mastering new words, and in affording exercises in correct enunciation.

The first reading lessons are based largely upon Nature Study and upon the poems and stories used in the language lessons. They are chiefly the expression of the child's thought along these lines.

Nursery rhymes, fairy tales, stories of adventure, Greek, Roman and Norse myths, English and American History stories, and the best poetry that the field of literature affords, are the sources from which materials are drawn throughout the course.

It is not enough that the children pronounce the words correctly and with ease; they must comprehend the thought, they must feel its force and significance, they must enter into the life and ideals of the great minds of the world. With them they must dream—
 Formal study must create...

In all grades the children are required to study maps in connection with this subject. They are required to sketch freely, to indicate movements of armies, and to locate places of Historical interest.

Supplementary reading is provided, the teacher drawing upon the best literature for incidents and descriptions which will make the lessons vivid and impressive. Pictures are used to show the mode of dress and the manners and customs of the people of different periods.

Much attention is given to the details of the development of civilization, and strong emphasis is placed upon the industrial, social and moral relations of mankind.

A Corner in the Kitchen

Arithmetic

"Unless there is to be arrested development, when the child enters school, some function must be found with reference to which he may utilize his ability to count—the number sense becomes vitalized and truly educative, at this point by being largely directed towards the definition of values in the form of measurements."

In the First Grade the exercises are chiefly counting and making comparisons, and number teaching is incidental to practically all subjects taught. In the Second Grade more stress is placed upon Number as a differentiated study, and from this time on it occupies its separate and distinctive place on the daily program. The work in the lower classes is very largely objective and many illustrative devices are used. Stress is placed upon fundamental combinations and processes. These must be thoroughly mastered, as they constitute the foundation upon which the entire superstructure of mathematics rests.

Oral work is prominent in all grades. It includes the development of definitions, processes, and forms and exer-

cises in reasoning and determining results with accuracy and rapidity. All work of this kind is reasonably simple and of such nature as will be suggested by the interests and demands of daily life. The teacher must see that all statements made by the children are in clear, smooth and correct English.

In all the written work sufficient attention must be given to forms of expression to insure accuracy in thought, and to teach the importance of system and neatness. There must be a constant stimulus to accurate, rapid and independent work.

It is not deemed necessary to spend any great amount of time upon "over-difficult and complicated problems and obsolete topics not needed in modern life", but every possible application should be made to existing conditions—industrial, governmental, commercial and social.

Spelling

Every class is a Spelling class in the sense that the teacher of each subject should see to it that the pupils spell correctly the important words used in each lesson. Oral Spelling should precede written exercises of any nature in order that the children may be prevented from writing words incorrectly and thus become impressed with wrong forms.

"Every effort is made to safeguard the child against a wrong first impression and incorrect learning of the word. If a home lesson is assigned it is not a mere mapping out of the number of words to be learned; the assignment is an exercise in which the teacher uses all his foresight in anticipating the various kinds of troubles the child will meet, focusing the attention on special difficulties and suggesting modes of self-instruction. The modern spelling exercise may test the child's knowledge, but its primary function is to instruct rather than to examine." *Suzallo.*

WILCOX, LOUISON.

PICTURE STUDY

Puritan pictures, Boughton; Madonna pictures, Muth; Child Life pictures, Jessie Wilcox Smith; First Steps, Mithell; Animal pictures—Cats, Madam Ronner and Adam; Dandelion, Sheer; Sheep, Rosa Bonheur and Anton Mauve; Strawberry Girl, Reynolds; The Lesson, Bougereau.

NUMBER

Review work of first year.

Notation and numeration continued by teaching "10" as a new unit.

Writing numbers as far as 1,000.

Course of Study in the Training School First Year

READING

1. The sentence is the Unit of Expression. Think the sentence as a whole.
2. Emphasize the unit.
3. Analysis of Sentences into Words.
4. Analysis of Words into letters and sounds.
5. Reading as a thought process.
6. Dramatization.

Texts: The Aldine Primer; The Arnold Primer; The Holton Primer; Cyr's Primer; The Progressive Road to Reading; Stepping Stones to Literature; Sunbonnet Babies; Cyr's Dramatic Readers; Mother Goose Melodies (Dramatized by children).

PLACE WORK

In the first two grades no special period is set apart for Geography, but all necessary ideas, as direction, points of the compass, location, seasons, prevailing winds, etc., are taught incidentally with Nature and Literature. Field lessons afford opportunities for observing Land and Water forms, which may be reproduced on the Sand Table.

NATURE STUDY

- September—Plant life; Insect life.
 October—Leaves; Seeds; Special Animal.
 November—Harvest; Thanksgiving.
 December—Evergreens; Frost, Ice, Snow (beauties of Nature).
 March—Trees, buds, birds.
 April—Trees, buds, birds (continued). The hen-eggs.
 May—Life in Nature; growth.
 June—Plants; Observe motion; the Flower Mission.

LITERATURE

The stories, poems and songs are introduced at appropriate seasons and on fitting occasions. Great wealth of material found in—

- Classics—adapted from Hans Anderson.
 Myths—found in Cooke's Nature Myths.
 Poems—by Field—Stevenson—Longfellow.
 Memory Gems—(selected).

PICTURE STUDY

Through the picture the artist is introduced. Tell interesting incidents in life of artist.

St. Anthony of Padua; Madonna of the Lilies; Madonna of the Chair—Raphael; Feeding her birds—Millet; the Churning—Millet; Two Mothers and their Family; The Helping Hand; Pictures of Dutch Life by Israels, Bloomers, Maria Okes Woodbury.

Brown and Myers Practicing the Low Hurdles

NUMBER

1. Counting.
2. Notation of numbers to 100.
 Reading and writing numbers to 100.
 First twenty-five combinations of two numbers.
 Correct oral expressions of simple addition, subtraction, multiplication and division facts.
 Perception of $\frac{1}{4}$, $\frac{1}{2}$, $\frac{1}{8}$ with symbols.
 Inch, 2 inches, 3 inches to 12 inches.
 Much applied work.

INDUSTRIAL WORK

Motor expression in Reading, Nature Study, Literature and History.

Second Year

READING

Pupils should complete at least three Second Readers and much supplementary reading matter.

Texts: Aldine Readers; Education Readers, Book II; Progressive Road to Reading, Book II; Stepping Stones to Literature; The Baldwin Readers; the Heath Readers, Book II; Fairy Stories and Fables, The Tree Dwellers, Hiawatha Primer, Aesop's Fables, Pets and Companions, Classic Stories, Grimm's Fairy Tales, Animal Life, Little Plays for Little People.

NATURE

Sept

Oct

Nov

Nov

December.

Evergreens—Leading up to the Christmas thought.
 Animal Life—Camel.

March.

Indications of Spring.
 Special observation.
 Twigs—Pussy willow, lilac, maple, horse-chestnut.

April.

Germes of life—animal and vegetable.
 Observation—
 Animal life—Crayfish, tadpoles, frogs, toads.
 Plant life—Bean, pea, corn.
 Trees—continue observation; historical trees.

May.

Special study of horse-chestnut.
 Twigs—buds in last stage of development.
 Comparison of Bean plant and Pea plant grown in school-room.
 Relation of animals to soil—example, the Earthworm.
 Flowers—brought into school-room and grown in school-room.

June.

Review "June Questions" of first grade.
 Flowers—Weather prophets.
 Things for pupils to find out:
 What animals crawl?
 What animals have no legs?
 What animals feed after dark?
 What animals have no eyes?
 What animals have webbed feet?
 What insects buzz, hum, chirp, croak, hiss, hoot, coo?

LITERATURE

If the trees and the flowers, the clouds and the wind, all tell wonderful stories to the child, he has sources of happiness of which no power can deprive him.

Stories founded upon good literature, which are within the comprehension of the little child, may be drawn from Field, Stevens, Whittier, Longfellow, Bryant, Cooke's Nature Myths, Celia Thaxter, Hans Brinker, K. D. Wiggin, Wiltse, Poulson.

PICTURE STUDY

Puritan pictures, Boughton; Madonna pictures, Murillo; Child Life pictures, Jessie Wilcox Smith; First Steps, Millet; Animal pictures—Cats, Madam Ronner and Adam; Dogs, Landseer; Sheep, Rosa Bonheur and Anton Mauv; The Strawberry Girl, Reynolds; The Lesson, Bougereau.

NUMBER

Review work of first year.
 Notation and numeration continued by teaching "100" as a new unit.
 Writing numbers as far as 1,000.

Perception of any simple work with 1-2, 1-4, 1-8, 1-10, 1-3, 1-9; 1-2, 1-5, 1-10; 1-2, 1-7, 1-14, with symbols, fractions, disks, picture circles on board, etc.
 Idea of square inch developed, and simple measurements of surfaces by square-inch tablets.
 Simple idea of volume.
 Liquid measure complete.
 Roman numerals I-XII, inclusive.
 Related facts (12 in a doz.; 24 hours in a day).

INDUSTRIAL WORK

Motor expression in Reading, Nature Study, Literature and History.

In Full Bloom

Third Year

READING

During this year pupils should read at least five Third Readers, together with such supplementary reading as may be correlated with their work in Nature Study, History, Geography and Literature.

At the end of this year pupils should be able to read readily and in pleasing style, matter within their comprehension in thought and language.

Texts: Robinson Crusoe—Baldwin; Fifty Famous Stories—Baldwin; Old Greek Stories—Baldwin; Third Reader—Carroll and Brooks; Dramatic Reader, Book II.—Stevenson; The Aldine Third Reader.

LITERATURE

In the Third Grade we wish to bring a number of mythical stories vividly before the children; therefore, we base the work on Hawthorne's "Wonder Book", using three periods a week during the winter term. The best stories for use in this grade are, The Golden Touch, The Miraculous Pitcher, The Gorgon's Head.

Books to be read to the children: The Children's Hour, Vol. 1; The Story Hour—Wiggin; Black Beauty—Sewall; The Little Colonel—Johnston.

In all of this work the children should be encouraged to dramatize, and illustrate on blackboard, or with ink, watercolors or charcoal, the stories they study.

NATURE STUDY

Fall.

September Flowers; Special study of Clover.
Migration of Birds; Nuts, Frost.
Special study of the Rabbit.

Spring.

Birds; Wild Flowers—Special study of the Dandelion.

HISTORY

Discovery of America; stories connected with Indiana; stories suitable for national holidays, particularly stories of bravery; community life of early settlers.

LANGUAGE

Guide Book to English—Harris and Gilbert. Selected Lessons.

In the fall and spring terms the work in Nature Study and History will furnish a basis for the Language work. During the latter part of November and in December the work will be based upon the Thanksgiving and Christmas holidays.

The work planned for Literature will be the basis for the Language work during the winter term, together with stories from History.

No attempt is to be made to force technique upon the pupils before it is needed, but as difficulties arise and definite instruction is required, such instruction should be given in definite lessons and repeated till the points are made perfectly clear, and right habits started.

GEOGRAPHY

First term—One day a week—"The Tree Dwellers"; "The Cave People".

Second term—One day a week—"Seven Little Sisters".

Third term—"Home Geography"—Dodge.

Village of Indiana—name (why so called), location, physical features of the locality, history and growth, organization, productive occupations, commercial occupations, educational and social institutions, government.

INDUSTRIAL AND ART WORK

Prang's Course of Study in Art; modeling in plasticine, weaving of rugs, washcloths and dolls' hammocks.

In the Principal's Secretary's Office

Material—Roving, macreme cord, cheese-cloth.

Picture Study—Two each term. Landing of the Pilgrims—Boughton; Arrival of the Shepherds—Lerolle; The First Step—Millet; Children of Charles I—Van Dyke; The Pet Bird—Meyer von Bremen; Piper and Nutcracker—Landseer.

ARITHMETIC

Milne's Progressive Arithmetic.—First Book, to page 170. The Pupils' Arithmetic—Byrnes, Richman and Roberts.

Books are not in the hands of the pupils till the subject is thoroughly taught, thus using them only for drill.

SPELLING AND WRITING

Graded School Speller, Spaulding and Miller. Every written lesson should be a writing lesson.

In every lesson only the best written work is to be accepted from the pupil. Special attention is to be paid to the form, slant and uniform size of the letters, and much practice in board work is to be given. Pen and ink work is begun in this grade. Palmer system begun.

Fourth Year

READING

The pupils should now be able to read fluently and for the sake of what they read. While continued attention should be paid to the art of reading, the pupils should always realize that they are reading as adults read—to get the thought of the author—and not for the sake of going through the exercise. They should also think about reading to entertain their classmates.

Texts: Old Stories of the East—Baldwin; The Louisa Alcott Reader; Silver Burdett Reader—Fourth Book; Child's Garden of Verses, Selections; Fourth Reader—Carroll and Brooks.

LITERATURE

The work during this year is based on "Robin Hood", as arranged by Howard Pyle.

We study Stevenson, Longfellow and Whittier, and memorize the following poems:

PENNSYLVANIA STATE NORMAL SCHOOL

The Land of Story Books, My Shadow, Bed in Summer, The Wind—Robert Louis Stevenson.

The Children's Hour, The Village Blacksmith, Paul Revere's Ride—Henry W. Longfellow.

The Corn Song, The Barefoot Boy, In School Days—John G. Whittier.

Stories which should be read to the children:

The Children's Hour—Vol. II.

Little Lord Fauntleroy—Burnett.

Two Little Knights of Kentucky—Johnston.

The Giant Scissors—Johnston.

NATURE STUDY

Fall Term.

Seed Dispersal; Leaves; Fruits—special study of "The Grape"; Trees and Forests.

Spring Term.

Seed Germination; Elementary Forestry (Hodge); Insects of the Household; Buds; Lessons on Soil.

HISTORY

Story of Cleo the Greek Boy; Institutional Life of the Barbarous Indians; Stories related to national holidays; Stories of Pennsylvania. Pictures should be used at every step, and models of the people, houses, and ships should be made.

LANGUAGE

Guide Book to English; pages 70-141.

As in the Third Grade, the Language work is based on the work in Nature Study during the fall and spring terms, and on Literature in the winter term, with History lessons throughout the year.

GEOGRAPHY

First Term.

The Earth and its People—Winslow. Lessons I-XLVII. Making of relief maps of the United States.

Second Term.

"The Earth and its People"—completed.

Third Term.

Pennsylvania studied according to General Outline for study of a Continent.

Name—spelling; significance or history.

Position—Indicate on map or globe; relative position; actual position.

General shape—Draw simple freehand outline map.

Size—Comparative; actual; time to cross, etc.

Coast—Extent and general character; indentations and projections.

Surface and soil—Mountains; location; direction; height; effect on country; importance. Plains and valleys (same points). Material needed—sand map, relief map.

Drainage—Lead children to see what characteristics of drainage must be; names and location of principal rivers and their importance to man; special study of a few typical rivers. (Ohio in Pennsylvania.)

Climate—Lead pupils to discover.

Products—Vegetable, animal and mineral. Type study.

Industries—What—Deduced by children from previous knowledge gained; how carried on.

Commerce and means of transportation.

Political divisions.

Cities—Lead children to determine where great centers of population must be, and why; teach names and location of important cities by taking a trip around the state.

Government—Form; leading officials; capital city.

Additional points concerning people—Material condition; education; religion; history.

At the Main Landing, Third Floor—John Sutton Hall

INDUSTRIAL AND ART WORK

Samplers showing chain, blanket, outline, over-handing and cross stitches.

Stenciled mat.

Stenciled and embroidered book-bag.

Articles from tilo-matting.

Prang's Course in Art.

Picture Study: Pilgrim Exiles—Boughton; Adoration of Shepherds—Bougereau; Song of the Lark—Breton; Aurora—Guido Reni; Shoeing the Horse—Landseer; Morning in the Highlands—Bonheur.

ARITHMETIC

Milne's Progressive Arithmetic—First Book, pages 170 to 288.

Book used for drill only.

SPELLING AND WRITING

Graded School Speller—Book III.

Every written lesson a writing lesson.

Palmer Method.

HYGIENE

"Good Health"—Gulick Hygiene Series.

Fifth Year

READING AND LITERATURE

Stepping Stones to Literature—Book Four.

The Heath Reader—Book Four.

The Carroll and Brooks Reader—Book Five.

Dramatic Reader for Grammar Grades—Knight; and matter selected from good literature appropriate to the work of the grade.

Supplementary reading based upon History, Geography, Nature Study.

Children are encouraged to take books from the school library for home reading.

Stories to be read to the children:

The Story of Siegfried—Baldwin; Norse Stories—Mabie; Little Men—Alcott; Selections from Heart of Oak, Vols. 3, 4, 5.

On Boys' North Veranda

NATURE STUDY

Fall Term.

1. Fall Flowers.
2. Garden Work.

Fall exhibit of flowers and vegetables raised in gardens at home; gathering of flower seeds.

3. Insects: Grasshopper and Cricket.

Spring Term.

1. Bird Study. "Our Common Birds—Their Life, Work and Natural Enemies."

2. Wild Flowers.

Continue work on flower calendar begun in Primary grades.

Add many flowers to list; continue field excursions.

3. Garden Work; Competitive Flower and Vegetable Culture.

4. Familiar Aquatic Animals; the common toad, its life story and work.

HISTORY

The work in History is used as a basis for Language work during the winter term.

Stories of American History.

Tales of Troy—De Garmo.

Stories of Norse Gods and Heroes—Klingsmith.

English History Stories.

LANGUAGE

The material for Language lessons is drawn from the child's environment, and from other subjects of the curriculum—History, Literature, Geography and Nature Study.

Selected Lessons from Cooley; Language Lessons from Literature—Book 1.

Sitting Room in a Teacher's Suite—The Tower

GEOGRAPHY

1. Short review of North America as a whole. (See outline for Study of Continent.)
2. United States, first as a whole, then by sections.
3. Canada and Newfoundland.
4. Mexico.
5. Central America.
6. South America.

INDUSTRIAL WORK

Knife Work—Kite, paper knife, top, matchesafe.
Indian Baskets—Lazy squaw stitch.

DRAWING

Prang's Course of Study in Art—Supplementary Work—Applied Arts Drawing Books.

Picture Study—Sistine Madonna—Raphael; Return to the Farm—Troyon; The Horse Fair—Rosa Bonheur; At the Watering Trough—Dagnan-Bouveret; Christ in the Temple—Hoffman.

ARITHMETIC

Hamilton's Intermediate Arithmetic—Fifth Year.

WRITING

All written exercises are considered as writing lessons. Copy book is used when needed for drill. Palmer method.

SPELLING

Words for written exercises are selected from the various lessons, and should include words misspelled or likely to be misspelled by the children in any written exercise.

Children should learn to divide words into syllables.

The use of the dictionary is encouraged.

Lessons taken from Graded School Speller, Spaulding & Miller.

HYGIENE

"Emergencies"—Gulick.

Sixth Year

READING AND LITERATURE

Reading matter selected from standard authors, and, in so far as possible, correlated with the work of the other departments, particularly Nature Study, History and Geography.

Harper's Fourth Reader; The Heath Reader—Book Five; The Story of the Greeks—Guerber; Story of Aeneas—Clark; Selections from Open Sesame, Vols. 1, 2, 3.

Stories to be read to the children:

Ten Boys—Andrews; Heroes of Chivalry—Maitland; Wee Willie Winkie—Kipling; Legends of the Rhine—Guerber; Hans Brinker—Dodge.

NATURE STUDY

Fall Term.

1. Fall Flowers.

Study the life history of a few of the familiar flowers growing near the school. The nasturtium, toad flax and scarlet geranium.

2. Garden Work.

Fall exhibit of flowers and vegetables; gathering of seeds.

3. Insects: The Honey Bee.

Spring Term.

1. Bird Study. Continue work of Fifth Year. Special study of the Oriole, Catbird and English Sparrow. Bird Day exercises.

2. Wild Flowers. Continue work of Fifth Year.

3. Competitive Flower Culture.

4. Insect Study.

Insects of the garden; Beneficial Insects. Continue insect study into Fall Term. Aim to complete life histories.

HISTORY

The Story of the Romans; United States History Stories; Historical Stories of Europe and Asia.

In the Blue Room

LANGUAGE

Much of the work in this year does not differ materially from that done in the Fifth Year. The subject matter is drawn from the other subjects of the curriculum—History, Literature, Geography and Nature Study.

Work of the Fifth Year continued.

Give considerable attention to the exact use of the sentence.

Direct and indirect quotations.

See that written work is divided into paragraphs in this as in all grades.

Selected Lessons from Cooley's Language Lessons from Literature—Book I.

GEOGRAPHY

1. *Europe.*

The study of Europe is conducted, as was the study of North America, by "trips" to the places of interest and importance.

The study of the grand division, as a whole, is taken up first and compared with North America as to relief, climate, drainage. (See outline for study of continent.)

After the voyage of steamer from New York to London, each country is visited and special points noted.

2. *Asia.*

The study of Asia is conducted as was that of North America and Europe.

A few important topics are studied as centers and types. A general view of the country is gained by imaginary travels through the continent.

China, Japan and India are studied with greater attention to detail.

DRAWING

Prang's Course of Study in Art.

Picture Study—St. John and the Lamb—Murillo; The Angelus—Millet; The Lion of Lucerne; Spring—Anton Mauve; The Windmill—Gabriel.

Down the Quadrangle

INDUSTRIAL WORK

Knife and Tool Work—Pen holder, hat rack, blotter.
Indian Baskets—Figure eight stitch.

ARITHMETIC

Hamilton's Intermediate—Sixth Year.

WRITING

All written exercises are considered as writing lessons. Copy book is used when needed for drill. Palmer Method.

SPELLING

Words for written exercises should include words misspelled in any written exercise. Lessons taken from Graded School Speller—Spaulding & Miller.

HYGIENE

"Town and City"—Gulick.

Seventh Year

LANGUAGE

Literature.

The Courtship of Miles Standish; Longfellow's shorter poems; The Christmas Carol; Rip Van Winkle; The Wonder Book; Whittier's shorter poems; The White Seal; Kipling; Lives of the Hunted, Thompson; Biography of a Grizzly, Thompson.

Theme Work.

Closely correlated with other studies, especially with History, Geography and Literature. Imaginary journeys, dialogues, and personifications; reproduction, character sketches and letter writing.

Formal Language Work.

Review and application of rules taught in preceding grades. Punctuation, paragraphing and capitalization.

English Grammar.

The simple sentence and its parts—subject, predicate, complements, word and phrase modifiers. Analysis and diagraming. The parts of speech.

The Night Watchmen

HISTORY

History of the United States; The Period of Discovery and Exploration; The Period of Colonization; Colonial Wars; The Revolution; Biography and Literature; Map Drawing; Current History.

GEOGRAPHY

Africa, Australia—The Islands of the Pacific; The United States; Our Dependencies.

NATURE STUDY

Elementary Science Lessons.

HYGIENE

"The Body at Work".—Gulick.

ARITHMETIC

Hamilton's School Arithmetic, through Percentage.

ART

The Work of the Seventh Year as indicated in the Prang Manual. Much Supplementary Work.

Picture Study Japanese Prints; Da Vinci; Dupré; Hofmann.

INDUSTRIAL WORK

Woodwork and Raffia—Waste basket, sleeve board, book rack, baskets.

SPELLING

Graded School Speller—Spaulding & Miller.
Careful attention to spelling in *every subject*.

Eighth Year

LANGUAGE

Literature.

Evangeline; Sharp Eyes and Other Papers; The Great Stone Face; Biographical Stories; The Vision of Sir Launfal; Wild Animals I Have Known; Shorter Poems from best authors; Snow Bound.

Biography of leading English and American writers.

Theme Work.

Based on Literature, History and Geography. Original composition. Letter-writing.

English Grammar.

Complete Maxwell's English Grammar. Analysis, parsing, diagraming.

HISTORY

History of the United States.

The Constitution.

Territorial Growth—increase in population and wealth.

Inventions.

The Cotton Gin; The Steamboat; Locomotive; Construction of railroads; Ocean Steamships; Electrical inventions.

The War of 1812.

The Mexican War.

The Slavery Question. Its rise and growth; effect upon the country.

The Civil War; cause, duration, incidents, results.

Reconstruction period.

Discovery of gold, silver, petroleum and natural gas.

The Spanish-American War.

Immigration.

Biography—Henry Clay, Daniel Webster, Lincoln, Grant, Sherman, Sheridan, Lee.

Map Drawing.

Civics and Current History. Daily papers, leading periodicals.

GEOGRAPHY

Europe—Asia.

Much supplementary reading.

Mapwork—composition.

Geography generalized.

Mathematical.

The earth as a sphere.

Form, size, movements, effects; relation to the sun; representation; latitude, longitude, zones.

Physical.

Land and water forms; Atmosphere and climate;

Plant and animal life; Races of Mankind.

Industrial and Commercial.

Leading industries of the World; Physical conditions upon which trade depends; Commodities of exchange. Leading seaports, lake ports and river ports of the world; Great railroad centers; Railroad and steamship routes.

ARITHMETIC

Hamilton's School Arithmetic.

ART

A course of study in Art—Prang Educational Company.

Much supplementary work.

Picture Study—Reynolds; Corot.

HYGIENE

"Control of Body and Mind"—Gulick.

INDUSTRIAL WORK

A continuation of the work of the Seventh Year.

SPELLING

Graded School Speller—Spaulding & Miller.

A Stroll in the Campus

Ninth Year

ENGLISH

Grammar; Literature; Composition.

ARITHMETIC

Hamilton's and Milne's Arithmetics.

Complete the subject and review thoroughly the work of the preceding grades.

ALGEBRA

Bailey's High School Algebra.

HISTORY

Morey's Ancient History.

LATIN

"Essentials of Latin"—Pearson.

CIVICS

MUSIC

DRAWING AND MANUAL TRAINING

SPELLING

Credit is given in the Normal Department for much of the work completed in the Ninth Year.

Music in the Training School

The Music of the Training School is under the direct supervision of the Director of the Conservatory of Music, and is taught by members of the Supervisor's class. Members of the Senior class observe the work, and in turn are required to teach.

The course of study is carefully prepared and the work of the grades conducted after the best known methods.

Teachers are carefully trained in all that is required of an expert supervisor, and the music of the Training School is a pronounced feature.

PENNSYLVANIA STATE NORMAL SCHOOL

Alumni Registry

Following are the names of the graduates of this school arranged in alphabetical order. This facilitates the finding of any name belonging in the list. Opposite the name, the year of graduation is given, and as the Class Directory follows this list, one can turn at once to the person's class, obtain his address, and the list of his classmates.

PENNSYLVANIA STATE NORMAL SCHOOL

Class Directory

Officers of the Society of the Alumni

ELBIE CREPS, Class of '04	President
JAMES B. SANSON, Class of '04	Vice-President
SARA E. BRUCE, Class of '04	Secretary
STELLA L. HASSINGER, Class of '04	Treasurer

Note—So far as the addresses of our Alumni were known, or could be obtained, they are given. Our friends will confer a favor by furnishing any information by means of which our directory may be made more complete in the future catalogues. In almost all cases the home address has been given.
We often have calls for teachers that we are unable to supply. We request our Alumni who are desirous of obtaining better positions to keep us informed of their addresses and desires.

CLASS OF 1876

Elementary Course

McCurdy, Irwin P., D. D., Litt. D., LL.D., D. C. L., Clergyman, 538 S. 49th St., Philadelphia, Penna.
